The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity, catarrh being a constitutional disease, it is not a local ailment. It is cured by destroying the foundation of the disease, and this is done by the blood-purifying action of the system, thereby building up the patient's strength by doing so. The proprietors have so much faith in its curative powers that they offer \$100,000.00 for any case that fails to cure. Send for list of testimonials.
