Entered in the post office at Ontario, Oregon, for transmission through the mails as second class mail matter.

Wonder if Ford ever read "Don Quixote," the famous knight, who among other things, undertook one day to tilt a windmill. The windmill got the best of him, which it always does. Surely it will this time, too.

An eastern woman married a man three hours after she met him, and now she wants a divorce. Did someone say that the eastern people are slow? with all brakes down this is certainly reckless matrimonial speeding.

History tells us that Germany was not always an ally of Turkey. For instance in 1877, Bismarck, in writing of Russian reverses at the hands of the Turks, said:

"It is impossible without deep sympathy to read of the misfortunes of these brave and friendly soldiers, or without indignation to learn of the shameless outrages committed by the Turks upon wounded and helpless. With such barbarians it is difficult to be on good terms diplomatically, and I think that all Christian powers must be indignant. . . . For the Russian, there lies in these events evidence that, in this war, they are the champions of Christian civilization against heathenish barbarism."

William Waldorf Astor went to England to escape the high taxes in America which he imagined were being imposed upon him. He recently paid an income tax to the British government of \$170,000. This evidently got Billy's goat.

Appropos of the exceedingly dry state of affairs existing in Oregon it is declared that the drinking of buttermilk makes one lazy. It goes without saying, however, that it is not as expensive as some other form of liquid refreshments.

After beating about the bush to find out the why and wherefore of the delights existing on this celestial globe, one may find the true cause in the words of Ingersoll on "Love." He wrote:

"The one thing in this world is constant, the one window in which light forever burns, the one star which darkness cannot quench, is woman's love. It rises to the greatest height; it sinks to the lowest depth; it forgives the most cruel injuries. It is perennial of life and grows in any climate; neither coldness nor neglect, harshness nor cruelty can extinguish it. A woman's love is the perfume of the heart. This is the real love that wrought miracles in art; that gives music all the way from the cradle song to the symphony that bears the soul away on wings of fire; a love that is greater than power, sweeter than life, and stronger than death.
