Riverside Homestead Co. to Clinton Woodward, Lot 7 Bl. 17 Outlook, Dec. 8, 1915, \$75.  
Geo. E. Osborn to Frank M. Tular, SE 1/4 NE 1/4 5-32-41, Feb. 28, 1916, \$10.  
Augustus F. Hill et ux to James F. Westfall, Lots 9-10 Bl. 15 Westfall, Feb. 26, 1916, \$125.  
Henry B. Purl to Laura M. Purl, 1/4 Int. in NE 1/4, SE 1/4 NW 1/4 24-16-47 and Lot 2 Sec. 19-16-45, Aug. 18, 1915, \$1.  
Grace D. Stevens to Frank P. Dow, Blocks 5-9-10-15-20-21 in Sec. 16-18-46, Jan. 22, 1916, \$10.  
Sure, we love everybody—our wife included

## LAST GAME IS THE FIRST DEFEAT

The last basket ball game of the season for the O. H. S. was played at Rupert, Idaho, last Friday evening when the local boys went to defeat. The school is rather disappointed that the record of the team should be thus broken by a game so late in the season, and by a team like that which Rupert had. The Ontario boys have defeated far better players than their late victors. This however was not because of the unfair playing of the latter but rather because of the different style of game played by Rupert and other basket ball teams in that locality. It seems that in most of the south Idaho towns they have not accepted this year's rules as official but are playing underlast year's rules and refereeing the games by those rules. Two games were played, one on Thursday and one on Friday evening. The first game the Rupert boys got the lead and when there was an apparent foul the Ontario team stopped playing, expecting the referee to stop the game. This he did not do and the Rupert team proceeded to shoot a basket while the local boys looked on in amazement. An objection was immediately raised by Mr. Prater and the rules were shown to sustain his objection, but the official refused to recognize the rule as did the other members of the participants at that place. During the game the Ontario boys had a chance to find out how entirely different were the Idahoan's rules, as time after time they stopped when there seemed no chance for anything but a foul only to see the opposing team make the basket and the referee hold up two fingers to indicate fair throw. Mr. Prater offered to pay the expenses of an outside referee from any of the towns playing this year's rules, but this was refused, because "they admitted" they would lose the game thereby.

The next evening the local boys were more prepared to give their opponents a dose of their own medicine, and at the end of the first half they had them sweating with the score standing 19 to 10 in favor of Ontario. The change of method and the breaking up of Ontario's team work however was too much for them and in the last half the home team again got the lead and the final score was 22 to 30 in their favor. Another game and the result might well be guessed by comparing the showing made the first night with that made the second. The Rupert bunch seemed to know this as they refused to play a game on Saturday. There seemed to be a general surprise in Rupert at the showing made by the Oregonians against what is considered the strongest team in south Idaho, but the surprise would have been much greater if another game had been played.

The Rupert team and the people of Rupert seemed to do all they could to entertain and please the Ontario boys. A banquet was given them after the last game and all the boys report the Rupert people to be the best entertainers they had ever seen. The trip was enjoyed to the utmost and in spite of the arguments over the rules, the journey and the people made the local boys feel that they had been indeed honored and received compensation for hard work put forth to give Ontario a winning basket ball team.

## NEW HOME FOR NYSSA JOURNAL

The Journal management will erect a magnificent one-story office building on a lot just west of the M. E. church, recently purchased from W. B. Hoxie. It will be of Oregon lumber with a foundation of genuine Snake river gravel. Fred Greene, who has been employed as architect, has the plans already drawn, and he assures us it will be the most imposing newspaper building in Nyssa. It's a shame to start anything this fine weather, but the Journal has got too poor to pay rent any longer and there doesn't seem to be anything else to do.

Here's wanting a passing thought on dear old Mexico.

## IN NEIGHBORHOOD OF ONTARIO

**JORDAN VALLEY**  
(From the Express)

Al Robison has moved to his ranch in the Cow lakes district for the summer.

The motor stage is now coming as far as Anderson's and will probably come to Sheaville in a few days.

Orin Mason of the Cow lakes district was in town Tuesday. He reports several inches of snow still on the ground in that section.

What is the matter with the Jordan Valley high school? domestic art, manual training and medical inspection, all started during the last semester.

A stage has been erected in the Jordan Valley hotel ballroom for the entertainment to be given there on the night of St. Patrick's day.

Kenneth Mackenzie, one of the substantial ranchers and stockmen of the South Mountain district, was in town the first of the week after supplies.

The partnership existing between Messrs Hayes and Poole has been dissolved. Mr. Thos. B. Hayes has taken charge of the business and will continue to run the same in the future.

The firm of Robison Brothers, blacksmiths, has dissolved partnership, C. C. retaining the business of the shop and A. E. taking the cattle, farm machinery, etc., belonging to the firm.

**Sheep Wintered Well**  
Notwithstanding the unusually hard winter the sheep in this territory came through in good shape, with the exception of one outfit, which is said to have lost heavily. Even the culls and old ewes were brought safely through by feeding.

**Reservoir Working**  
James Anderson has completed a dam that creates a reservoir for storing water for irrigating his ranch on Crooked creek. The water has already passed the high water mark and is backing up over the Loveland ranch, which will be partially submerged. This reservoir will enable Mr. Anderson to largely increase his farming acreage.

**John F. Forrester**  
John F. Forrester, a rancher of the Cliffs district, whose illness was announced in this paper last week, was brought to this place Wednesday evening, en route to a hospital at Boise. At about seven o'clock Thursday morning, when ready to start for the railway in a motor car, he was seized with another hemorrhage of the lungs and passed suddenly away.

**Boise Winnemucca R. R.**  
Col. E. R. Place, general manager of the proposed Winnemucca Northern railway, has returned from a trip to Caldwell and Boise City, Idaho, where he attended to business matters pertaining to the new road.

It was far-sightedness on the part of Colonel Place when he selected this route for the Winnemucca Northern, which would shorten by 600 miles the distance by railway from Boise City and Caldwell, Idaho, to San Francisco, and besides open to settlement the largest tract of undeveloped agricultural, mining and stock raising territory now without railway facilities in this country.

**NYSSA PROSPERING**  
(From the Journal)

Mayor—S. D. Goshert.  
Recorder—J. Boydell.  
Treasurer—W. W. Foster.  
Councilmen—L. Spier, S. F. Foster, Frank Leuck, F. O. Carman.

The above tells the result of an unusually quiet city election held last Monday.

Carl Tittle left yesterday for North Yakima to begin shearing sheep.

Frank Lockwood is one of the engineers who are surveying the contours of the Nyssa-Arcadia Drainage district this week. Mr. Lockwood was located at Nyssa several years, going to Caldwell from here, thence to Portland, but returned to Caldwell recently.

A jolly crowd of about fifty per-

sons poured into the home of Mr. A. D. Morey last Friday evening and gave him a complete surprise in honor of his sixty-third birthday.

Mr. Seward of Ontario has bought the Reece ranch which Seymour Ross has farmed for several seasons and will operate it himself. Mr. Seward has a fine herd of dairy cattle which he expects to place on the ranch a little later on.

The public spirited citizens of the Hogback school district met at the school house Saturday, March 11, for the purpose of leveling the school grounds and setting out trees and beautifying the premises generally. Everybody brought teams and implements and helped the good work along. A big dinner was served.

County Surveyor B. F. Farmer was in town from Vale Thursday. He was called over by H. J. Ward to make surveys for a drainage ditch which Mr. Ward contemplates having dug on his farm. Mr. Farmer will be a candidate to succeed himself and all prospects are favorable.

Dr. Sarazin was called to Owyhee Saturday to attend the little daughter of H. Walters, who had the misfor-

tune to break her left arm when she was thrown from the family cow which she was riding. Being young and healthy, the little lady was doing nicely at last reports and will make a quick recovery.

**Increase Milk Supply**  
C. B. Wills went over to Apple Valley Thursday and interviewed the dairymen in regard to sending their milk to the Nyssa cheese factory. Pledges for milk to the amount of 1500 pounds daily were secured, which will boost the output of cheese at the local factory to a gratifying extent. Mr. Wills expects in a short time Apple Valley will be supplying 2500 pounds daily.

**Drainage District**  
C. E. Dodge, consulting engineer of the Nyssa-Arcadia Drainage district has been the busiest man in the Snake valley this week attending to the preliminary work necessary to starting the big enterprise that will mean thousands of acres added to the producing territory of Nyssa. He is hopeful for a favorable outcome. Engineers started work Tuesday getting the contours of the district.

COMPRESSED WISDOM—The man who makes it his business to keep in touch with a bank invariably accumulates the money to put in the bank. Be wise, and make this bank YOUR bank.

## THIS BANK

We Stand by Our Customers	IS FOR YOUR CONVENIENCE USE IT	Capital and Surplus \$100,000.00

EVERHART DRUG CO., Ontario, Or.

## New Selling Plan Meeting With Approval

Our New Plan of Selling

**Hart, Schaffner & Marx**  
and  
**Clothcraft Clothes**

is attracting a good deal of comment, mostly approval. You can easily understand why this should be so, if you understand the plan.

It's our way of doing business in the interest of the many instead of the few. In the past, the rule has been to sell all the suits possible during the active season at regular prices. Then, when nearly everybody has bought, and the season of slow sales comes, mark the goods down and give the benefit to those who came late.

## Doesn't Seem Just Fair, Does It?

Not any more of that here; we've decided to mark the goods down—as low as we can at the beginning of the season—and give all of you the benefit as we go along.

We're "going along" on that idea. There will be no more sales at this store.

**The Toggery**  
Ontario Oregon
