

THE PORTLAND LIVE STOCK MARKET GOOD

The supply is a little off and the prices are firm for what is offered.

Steers.
The high market this year and for several years previous was touched late Thursday afternoon on some fairly good pulp-fed steers, \$5.65 being the price. Another bunch of hay-feds brought the high price of \$5.35; taking it altogether, the steer market ended for the week fully 40 cents higher than two weeks ago, with quotations continuing steady.

This morning several loads of pulp-feds went at the high figure of \$8.75. They were of very fair quality.
The bulk sold Saturday at \$6.25 @ 6.50, a week ago at \$7.85 @ 8.10, a month ago at \$7.25 @ 7.50, a year ago at \$6.75 @ 7.00, 2 years ago at \$7.50 @ 8.00, 3 years ago at 7.60 @ 7.90, and 4 years ago at \$6.15 @ 6.30.

Hogs.
A good advance was made this morning on quality, the light receipts showing a high per cent of quality stuff. Trading started on a fairly active basis and a \$9.35 top was established. The bulk of sales was around the \$9.25 mark. Nearly all eastern markets showed a recovery of strength since their decline of last week. No prime heavies were weighed here this morning.
Bulk sold Saturday at \$9.10, a week ago at \$9.10 @ 9.15, a month ago at \$7.90 @ 8.00, a year ago at \$7.50 @ 7.55, 2 years ago at 8.50 @ 8.85, 3 years ago at \$9.30 @ 9.50, and 4 years ago at \$7.10 @ 7.20.—Monday's Report.

LAMB FEEDING FOR THE YOUNG FOLKS

Boys and girls competing in this project shall feed, care for and exhibit from one to five lambs. Those who raise and exhibit more than one lamb will be given five points for each additional lamb up to four.

Those entering this project will be required to furnish a report giving the age of the lamb or lambs when taken by them and the date the project was begun as well as a short story of how they did the work.

Most of the lambs will, no doubt, be "bums" or orphan lambs. Just what the children can secure. Some of them may be Merinos, some grade Lincolns, some Hampshire etc., and will not necessarily indicate the children's ability to select good lambs; consequently in judging, emphasis will be placed upon the condition rather than the quality of the lambs.

This is a county project, only. The same prizes will be given that are given in the other projects with the exception of the first prizes which are free trips to the State Fair and are awarded to the boy and girl making the highest score in the projects outlined by the Agricultural College.

While the children are in school, some one else may feed the lambs during school hours. Work that may take the children away from home later on will not serve as an excuse for the help of others.

Following is the basis of award:
Exhibit: Best lamb for purpose for which it is intended . . . 40
Five points for each additional lamb up to four 20
Best Project Report 40

Grand Duke Nicholas may have visions of traveling over Alexander the Great's route in the other direction.

If you are thinking of buying a car, see the Ontario Real Estate Co. They are agents for the Mitchell 6 of '16, the greatest car value the world has ever known. 12tf

Plans for the new American battle cruisers are said to be the best on earth, and as paper is steadily going up in price that is something.

Portland schools by tests of Dr. Edmund Myers show 45 per cent efficiency. They are next to Los Angeles the most expensive, and his conclusion is, too many fads and fancies and not enough elementals. Seven out of a class of 31 did not know what state the Hudson river was in, and the class average in geography was 34.6 per cent out of a possible 100. As a sample of socialistic service under public ownership the public schools make a poor showing.

Seed Potatoes for sale—Rurals and Netted Gems—Chas. Bolden, one mile west of fair grounds, Ontario. 2t

To introduce your choice of wall paper at 25 per cent discount, Franklin's Second Hand Store. 1313

THESE ARE SOME GOOD LOOKERS SURE

Streets kept clean and in repair. Business houses and residences kept neatly painted.

Roads graded and no "duck ponds" allowed to form.
Front yards with concrete walks, flower beds, and vacant spots seeded and frequently mown.

Back yards so clean they compel admiration.
School yards sanitary and with adequate playgrounds for children.

Store windows with neat displays of goods and a spirit of thrift in evidence.

Churches well filled on Sundays. No street corner loafers and bums. A strong spirit of civic pride.

Everybody hustling for himself and boosting for this town.
These are good signs—push them along.

FOR SALE

A modern 5 room house, bath, piano, all furnished, two fine lots and good lawn. Price \$2200.00, terms. Cheapest buy on the market.

For sale 43 acres, all under ditch and in cultivation, 8 room house, 1 acre in bearing prune trees, 14 acres in 7 year old apple trees, seeded to red clover between trees, balance in alfalfa and blue grass. Every acre fine land. The biggest snap ever offered in this valley. If you got the land for nothing you could not put the improvements on for the price asked. All under gravity ditch with paid up water right. Price \$150.00 per acre, one half cash.

For sale 10 acre tract near city, all in cultivation, with house. Price \$200.00 per acre.

Land to rent—100 acres of alfalfa at Arcadia.
20 acres of alfalfa two miles west of Ontario, that we will rent, either on shares or for cash.

70 acres, two miles from Ontario, all ready to plant to grain. We will rent on shares. Inquire of A. W. Trow. 131f

Single cycle auto engine and frame, tubes at your own price. Deputy, Phone 56 N. 4. 1313

Is it because reports of casualties in Germany are so common that so little space is given to the story of Ambassador Gerard breaking his collar-bone while skiing?

Claude Bingham and family have arrived from Ontario and taken up their home on their ranch, which is located south of town, and will farm same this season.—Homedale Press.

WHY PRINCE ALBERT WINS

Patented Process Is Responsible for Its International Popularity

Smokers so much appreciate the flavor and coolness and aroma of Prince Albert pipe and cigarette tobacco that they often marvel that this one brand could be so different from all others.

The answer to this question is to be found on the reverse side of every Prince Albert package, where you will read: "Process Patented July 30th, 1907." That tells the whole story. Prince Albert is made by a patented process that cuts out the bite and parch, which makes the tobacco so mighty agreeable and satisfying to men of every taste of every civilized nation on the globe.

Smokers should realize that this patented process cost three years' continuous work and study and a fortune in money to perfect. But the result has proven to be worth all that was expended upon it, because it has set free men who believed they never could enjoy a pipe or a makin's cigarette.

Prince Albert makes it possible for every man to smoke a pipe or to roll his own cigarettes. And no matter how tender the tongue, Prince Albert cannot bite or parch. That is cut out by the patented process, leaving for the smoker only the joys of the fragrant tobacco.

It is a fact that since Prince Albert "arrived," just about six years ago, it has made three men smoke pipes where one smoked a pipe before.

EARLY CAPTURE OF VILLA NOT EXPECTED

Pershing Intimates Expedition in Mexican Territory May Continue for Months.

Columbus, N. M.—A speedy termination of the American expedition into Mexico is not looked for by General J. J. Pershing, commanding the forces in the field, according to advices received here. It was said that, following a staff conference, General Pershing announced that the people of the United States should not place too much confidence in reports that Francisco Villa, whose command attacked this town several weeks ago, had been bottled up, either by the American forces or by Mexican troops.

The nature of the country in the vicinity of Namiquipa, where Villa is supposed to be, it was pointed out, renders it difficult for any force to surround a small band in the mountain passes and almost imperceptible trails which offer means of escape.

While it was understood General Pershing does not attempt to predict the length of time American troops may be in Mexican territory, it was intimated that the period may extend into months.

Other reports also received from unofficial sources indicated American military authorities believed a sufficient number of men of all arms of the service have been concentrated at La Ascencion, Casas Grandes, Colonia Dublan and other American field points to meet the exigencies of any emergency that may arise.

VILLA'S MEN ARE HUNGRY

Band Almost Without Supplies and Ammunition as They Flee.

Casas Grandes, N. Mex., by wireless to Columbus, N. M.—Francisco Villa, the outlawed Mexican bandit, who is fleeing before American cavalrymen somewhere in the district between Namiquipa and the foothills of the Sierra Tarahumara, is increasing his band by force, according to army reports. The bandit chieftain seized 35 young men and boys in El Valle, 65 miles south of here, and forced them to accompany his column.

Utmost haste is being made in the flight toward the mountains, which Villa is nearing rapidly, neither men nor horses being spared. It is known that he is attempting to reach a neighborhood where he has ammunition cached in three places.

Peons in the district through which he has passed recently say that his men are ravenously hungry and are practically in a state of starvation.

Dead and dying horses discarded in the flight are found almost daily by American troops.

NO AMERICANS LOST ON STEAMER SUSSEX

Paris.—The ministry of marine, in an official statement, declared that the channel steamer Sussex, which was sunk, was torpedoed, and estimated the number of victims at about 50. Twenty-five of the passengers on board were Americans.

Detailed information gathered by the American embassy here indicates that no American lives were lost on the channel steamer Sussex.

All the Americans, whose names were on the passenger list, have now been accounted for, the embassy states. It is possible, however, that there may have been among the passengers some Americans whose names were not inscribed.

Professor James Mark Baldwin and Mrs. Baldwin were saved, it is authoritatively announced. They are at Mireux, near Boulogne. Miss Elizabeth Baldwin, their daughter, was badly injured and is in a hospital at the same place.

Joshua Dickinson Armitage, of New York, is in a hospital at Dover, according to a dispatch from there. He is badly injured.

Army Bars Bald Heads.

Chicago.—Baldheaded men are not wanted in the pursuit of Villa. It is warm along the border and they might become affected by the heat. So announced Lieutenant Kenney in refusing to enlist Stanley Twooney of Syracuse.

California Hopmen Pulling Vines.

Sacramento.—Discouraged by a long succession of years of low prices and by threatened embargo on hops by England, many hopgrowers of the Sacramento valley are either pulling up a portion of their hop vines or seriously considering such action.

100 Yards of German Trenches Blown.

Berlin, via London.—More than 100 yards of German trenches near St. Elloi have been blown up by the British. German army headquarters announced.

NEWS OF GENERAL INTEREST IN IDAHO

Important Occurrences Of The Past Week From Cities In Our State

Genesee Show Changes Dates.

Genesee.—The dates of the annual horse show have been changed and the show will now be held June 15, 16, 17. On account of the refusal of F. E. Lambert, who was elected to manage the show, to accept the responsibility, the president of the chamber of commerce appointed a board of nine directors to handle the show. They are: Dr. J. D. Adams, chairman; Charles Whalen, secretary-treasurer; G. E. Taber, W. D. Woodward, Thomas H. Herman, John Meyer, Leon Larrabee, James Jackson and Edwin F. Smolt. The chairman appointed the various committees and work has already started.

Spirit Lake Mill to Resume.

Spirit Lake.—The saw mill of the Panhandle Lumber company resumed operations Monday, giving employment to about 100 men. Officers of the company have decided to run one 10-hour shift for the first week, when they will start a night shift also. This will give employment to about 150 more, as the planing mill, which is now running days only, will also run nights. The output of the mill is 100,000 feet for each shift, but this is not sufficient to fill the orders which have been accumulating during the winter. The opening of the mill has been delayed for several weeks owing to ice in the lake.

Genesee Grain Elevator Proposed.

Genesee.—The Farmers' Union warehouse members met here and discussed the handling of grain in the bulk system. Sacks are so scarce and the price will be so high that many of the farmers have made up their minds to adopt the bulk system. To do this they will be obliged to build small tanks on the farms for handling the grain while threshing and until hauling can be done. There are now two bulk elevators in Genesee and much talk of a third being built for this fall's grain.

The Jumping Frog Story.

It was in the Angel Camp bar that Mark Twain heard from an ex-pilot called Ben Coon the jumping frog story. Clemens related it to Artemus Ward, who urged him to write it, to be included in a book that Ward was publishing. Clemens dilled and sent it to the publishers too late, but they handed it over to a dying paper called the Saturday Press, which gladly gave it pride of place in its columns on Nov. 18, 1805. Professor Sidgwick synthesized it in Greek form for his book "Greek Prose Composition," and thus arose the legend that the jumping frog story originated in ancient Greece, a legend in which Clemens himself believed till Professor Sidgwick undeceived him in 1890 by telling him that the Greek version was merely a translation of Clemens' own work.

GERMAN RAIDER IS SUNK IN SEA DUEL

London.—The German raider Greif, attempting to run the British blockade of the North Sea, was sunk in battle by the British cruiser Alcantara. The Alcantara also was sunk.

Five German officers and 115 men out of a crew of 300 were rescued and taken prisoners by the British. The Alcantara lost five officers and 69 men.

The Greif was sunk by gunfire and the Alcantara by a torpedo, according to the version of the British admiralty. The German admiralty says the Greif was torpedoed, and then blew herself up.

The two ships lay almost side by side, while the captain of the British steamer inquired by megaphone for particulars of the strange vessel, which had the Norwegian colors painted on her sides, but which flew no flag. The inquiries from the Alcantara were answered in perfect Norwegian, but the actions of the raider aroused the suspicions of the British auxiliary. She was lowering a boat to send a searching party aboard when the Germans opened fire.

The action is described as one of the hottest of the war, recalling duels between evenly-matched frigates in the days before the time of ironclads.

British Make Raid on Airship Sheds.

London.—A German torpedo boat is missing since the sea fighting which followed the British air raid on Saturday morning on German aviation sheds in northern Schleswig-Holstein, according to an official German statement received here by wireless.

Berlin reported that three British hydro-aeroplanes were shot down on and about the island of Sylt during the raid, the crews being taken prisoner.

Americans Are 250 Miles into Mexico.

San Antonio, Tex.—Francisco Villa has escaped from the Mexican troops that had checked him near Namiquipa, and three columns of American cavalry are pursuing him. The American troops are almost 250 miles south of the border. This information was contained in a detailed report by General Pershing that reached General Funston here.

IDAHO LABOR ORGANIZES

Minimum Wage and Workmen's Compensation to Be Asked.

Boise.—The Idaho State Federation of Labor was organized, when labor union delegates from all parts of the state assembled here. C. O. Young, national organizer, was present. The delegates were addressed by Governor Alexander, who declared he had always favored anything that would give the laboring man a chance. Other speakers included Ernest Breckman of Wallace, and A. W. Muir, of Pocatello.

Officers were elected as follows: president, C. F. Caton, of Boise; secretary-treasurer, P. H. Spangenberg, Boise; vice-president, first district, C. Vestline, Wallace; second district, A. W. Koel, Boise; third district, H. Brown, Pocatello.

Resolutions were adopted favoring the organization of local unions in all counties, urging the legislature to pass a workmen's compensation act, a minimum wage scale for women, direct legislation, and an act requiring an examination of steamfitters and plumbers.

The state was divided into districts.

High Water Menaces Lights.

Harrison.—That the electric lighting system of Harrison may be seriously affected by the high water was asserted by Grant Kimmel, manager of the Harrison Electric Light company. The water is now nearly up to the mark which a few years ago required the removal of the power machinery to higher ground. James Brown, owner of the Harrison Shingle mill, said that unless the water subsides he will be compelled to close his plant.

Army Will Probe Aviation Service.

Washington.—An army investigation of Senator Robinson's charge that Lieutenant Colonel Reber, head of the aviation service, had been directing the aero corps in an inefficient manner, has been ordered by the war department.

Democratic National Secretary Dies.

Washington.—Thomas J. Penne, secretary of the democratic national committee, who had been ill for several months as a result of pneumonia, died at his home here.
