The largest stock for you to select from in this section of the newest in dress goods.

BOYER BROTHERS & COMPANY

Ontario, Oregon

You see Stars in METRO PICTURES

Your theatre should show them.

MEN!

All men look neater and feel better when their clothing is neatly cleaned and pressed. We do all kinds of dyeing, cleaning, pressing and repairing. You can always tell our patrons by their appearance on the street. Clothing may not make the man, but keeping it cleaned and pressed makes him a deal more attractive to his fellow men—and to the ladies. Our prices are so reasonable they are only an incident.

Everhart Drug Co., Ontario

INSTRUCTIONS VOTERS SHOULD ALL READ

The attention of the voters is respectfully called to the following: Please take notice that the names of certain candidates do not in all cases appear in the same relative position on the official ballots that they occupy on the sample ballots. This is caused by operation of the law requiring the rotation of names in all cases where the number of candidates is five or more for any office. In such cases the names rotate on the official ballot but do not rotate on the sample ballot.

All registered electors should vote in the precinct in which they have registered, except those registered electors who have changed their residence from the precinct in which they are registered, during the period when registration is closed by law, may on application to the county clerk receive a certificate of registration, which certificate, on presentation to the election board will entitle the elector to vote in the precinct to which the elector has removed.

Any registered elector voting in any precinct other than the one for which he is registered, without first having obtained a certificate of registration, will be guilty of double registration, the extreme penalty for which is a term of three years in the penitentiary.

Electors who have not registered will be entitled to vote at any election by registering on election day before one of the judges of election, such registration, if properly made, will permanently register the elector for that precinct. If naturalized the elector must exhibit final citizenship papers or a duly authenticated copy or certificate thereof.

CHAUNCEY DEPEW ADVISES

At 82, Noted New York Humorist and ex-Senator Works Long Hours

"Keep going!" That is Chauncey M. Depew's advice to the aged. Mr. Depew was 82 the other day.

"I feel as well and capable as I did at 72, or at 62, or at 52," he said.

"Gladstone won his greatest political triumphs after he was 50. Commodore Vanderbilt made more than two-thirds of his vast fortune between the ages of 70 and 80.

"Joseph Choate, who is 84, is more sought for because of the excellent speeches he is now making than any other man in the United States.

"President Charles W. Eliot, of Harvard, is writing articles for magazines and delivering lectures before scientific bodies and colleges which are recognized everywhere as the best thought on the subject.

"I do everything I ever did, and enjoy it just as much.

"I am busy from 10 o'clock until midnight. It is work that counts. Eating and sleeping have little to do with health and longevity. Eight hours' sleep is enough for most people, and, as for food, half of my friends have dug their graves with their teeth."

A GOOD TIME TO ADVERTISE.

The hackneyed old phrase, "Now is the time to advertise," has special pertinence just now. It is in time of prosperity that money is made. As the result of big prices for hogs, sheep, wool, horses, cattle and practically everything raised on the farm, the demand for war munitions, etc., the country has reached a high stage of prosperity. There is plenty of money in circulation, and people are in a mood to buy liberally.

In such times as these advertising pays more generously than ever. The people are hopeful and confident, disposed to anticipate their wants, to buy the best qualities, and to purchase things they would not have felt they could afford a year ago.

Merchants ought to be able to double their trade under these conditions.

But they can't get it by waiting for it. They must attract more attention, take a little more newspaper space, describe their goods a little more fully. A great deal of money will be spent in the next six months, the bulk of it with these dealers who court the most publicity.

\$168.99 FOR CARLOAD OF HOGS.

The swine industry in the New Plymouth district is growing rapidly. Up to the present time they have already been shipped from here this year 26 cars of hogs. The splendid prices for hogs has brought another hog buyer in the field here in the person of Elton Webb, a well known farmer of this place. His first shipment, consisting of 165 hogs, was made last Friday. These hogs had an average weight of 195 pounds each, for which the farmers who brought them in were paid \$8.10 per hundred pounds, or a total of \$168.99 for this carload.

HANLEY SHIPPING MANY CATTLE

Wm. Hanley was in town Monday evening looking after a large shipment of cattle. The cattle were to have been shipped from this point but owing to having gotten into the hills beyond Riverside Mr. Hanley discovered it would be more feasible to ship from that point and went up there to ship out instead. The shipment was made Wednesday. Another shipment of about two thousand head will be in here soon. The shipment this time consisted of about fifteen hundred head. — Juntura Times.

DON'T KISS THE CAT.

It must be a terrifying revelation to those who kiss their cats, that has been made by Prof. Flocci, an Italian chemist. He has found by experiment that when a cat licks its lips it spreads over them a saliva in which there are swarms of minute bacilli not free from danger to human beings. When he inoculated rabbits and guinea pigs with this noxious substance they died within 24 hours; and he has come to the conclusion that it is dangerous for any one to indulge in the habit of kissing cats.

MORRISON MOVES TO NEW TOWN

J. L. D. Morrison, the genial agent of the Oregon Western Colonization company, arrived in Burns the first of the week from Bend, accompanied by his family from Portland. The Morrises will make their home at the Colony House near the new town, Bend're, during this summer season. Mr. Morrison reports the sale of several sections of land within the past few weeks. The new townsite, he stated, is all cleared of brush and surveyors are awaiting orders to begin platting. — Burns News.

DODGE DEALER O. K.'s WESTERN MOTOR OIL.

H. O. Harrison Co., distributors of the Dodge Bros. car, San Francisco, think so highly of motor oil made from western asphalt-base crude that they use nothing else in their demonstrating cars, and all the cars they sell go out filled with this oil.

"We have had a good opportunity of observing its action in the Dodge motor," says H. P. Huddleston, manager of the service department, "both in the hands of our own men and of our customers, and are entirely satisfied with the results. Our motors are free from carbon, compression is at its highest point of efficiency, and we are never troubled with overheating and laboring of the motor on long, hard pulls."

AN ARKANSAWER.

A young lady went into Boyer's store and approached the grocery department manager as follows:

Young Lady—"You ain't got no eggs, is you?"

Wilmer—"I ain't said I ain't."

Young Lady—"I ain't asked you is you ain't, I asked you ain't you is, is you?"

Accommodating chaps, those Mexicans, they've offered us not less than three corpses of Villa.

\$112 OR \$653 INCOME?

Frequent reference has been made in these columns to the practice followed by field agents of the department of agriculture in comparing a statement of a farmer's business with a statement of the average business of farmers in the same section.

"However," explains a department official engaged in cooperative demonstration work in the Northern, Central and Western States, "it is but natural that farmers should in some cases wish to go behind the average and have their business compared in detail with the business of other individual farmers."

"The following table shows how the business of Farm No. 29 was compared with that of Farm No. 31:

| | | |
|-------------------------------------|-------------|--------|
| Labor income | \$112 | \$653 |
| SIZE OF BUSINESS | | |
| Area in crops, acres | .. 40 | 38 |
| Number of cows | 16 | 15 |
| Number of productive animal units | 27 | 22 |
| DIVERSITY OF BUSINESS | | |
| Receipts from dairy | .. \$900 | \$1117 |
| Net livestock receipts | 660 | 773 |
| Receipts from labor off farm | 55 | 125 |
| CROP YIELDS | | |
| Silage corn, tons per acre | 16 | 13 |
| Hay, tons per acre | 1.7 | 1.6 |
| PRODUCTION OF STOCK | | |
| Milk receipts per cow | .. \$56 | \$74 |
| Receipts per productive animal unit | 58 | 86 |

"These two farms are located in the same neighborhood, have like soils and identical weather conditions are keeping the same breed of cows and selling in the same markets. Yet Farm No. 31 made a labor income of \$541 larger than the neighboring Farm No. 29.

"So far as the size of business is concerned there is very little difference in the farms. However, Farm No. 29 with two more acres of crops, one more cow and five more productive animal units, has the advantage of a slightly larger business.

"With respect to diversity of business, these two farms have the same sources of income. The two important crops, silage corn and hay, seem to be about equally good, with Farm No. 29 possibly having a slight advantage.

"In spite of Farm No. 29's slight advantage in size of business and yield of crops, Farm No. 31 made in one year nearly six times as large a labor income. To what is this due?

"It will be seen that in the production of livestock there is a marked advantage in favor of Farm No. 31, the receipts per cow being eighteen dollars higher and the receipts per productive animal unit twenty-eight dollars higher than on Farm No. 29. The difference in production of livestock accounts for more than the difference between the labor incomes on the two farms. If Farm No. 29 had as good livestock as Farm No. 31 its labor income would be about \$800 greater than it is.

"When this comparison was shown to the operator of Farm No. 29, he could not believe that his livestock were really so poor, but when he had again gone over his creamery receipts he was convinced. Since this record was returned and the comparison made, the operator of Farm No. 29 has been weighing the milk from his cows and testing for butterfat. He has recently joined a co-testing association in the locality and has advised with the county agent as to better methods of handling the livestock."

NEW PERFECTION OIL COOK-STOVE

Why not cook with a modern oil stove this summer and be comfortable? Bakes, broils, roasts, toasts. More efficient than your wood or coal stove, and costs less to operate.

Better cooking because the long bluechimneys give steady, more evenly distributed heat, under perfect control—like gas. No smoke or smell. In 1, 2, 3 and 4-burner sizes, ovens separate. Also cabinet models with Fireless Cooking Ovens.

Ask your dealer today.
