WERE YOU EVER "FOOLED" BY A "TALKING MACHINE"?

That question sounds absurd to you, doesn't it? Even a South Sea Islander could instantly tell, as soon as he heard it, that a talking machine wasn't a real person.

THE NEW EDISON Re-Creates Music

We want the opportunity to prove to you that Edison's new invention is not a "talking machine"; that it does what no talking machine can do.

A demonstration entails no obligation on your part. We want you to understand Edison's new art.

ANNA CASE

The Miracle Girl of the Metropolitan, whose bewitching beautiful Soprano voice was chosen for the first test to determine whether Edison had actually succeeded in achieving his ambition to re-create the human voice so perfectly that his re-creation could not be distinguished from the original.
