

Put yourself  
in HER place  
Mr. Man

Why not get a good oil stove so that during the hot weather your wife or mother or sister or daughter, can prepare the meals in a cool, comfortable kitchen?

There's no overheating the kitchen with an up-to-date oil cook stove. It's just like cooking with city gas. The burners concentrate the heat at the different cooking points.

## NEW PERFECTION OIL COOK-STOVE

For Best Results Use Pearl Oil

No wood or coal or ashes to lug. No waiting for fires to catch up. The long blue chimneys do away with all smoke and smell. In 1, 2, 3, and 4-burner sizes, with or without ovens. Also cabinet models with fireless cooking oven.

## EVERYBODY KNOWS IT

When You Wear a Tailor Made Suit

There is a peculiar distinction in the fit and workmanship which puts it in a class by itself, and the wearer in a class by himself, with other tailor garbed men.

When we make it your suit is made to fit you, and not a wooden dummy. No two forms are exactly alike, hence no suit patterned after a dummy will give you an exact fit, such as you get when we take your individual measurements.

## THIS COUNTRY SOON MUST FINANCE ITSELF

People Should Realize Thrift at Home Is Necessary.

One hundred years ago the first savings bank in the United States was established. The advent of this institution came with the era of commercial and industrial expansion. It came when the population of the United States was only 9,500,000, and there were but 246 banks in the country. By 1820 ten of these savings banks had been established with 8,635 depositors and aggregate deposits of \$1,138,576.

Trospically came, the people saved and the deposits in these great reservoirs of capital, which now number 2,100, by leaps and bounds increased to enormous proportions. To-day, with our national wealth approximating \$187,000,000,000 and almost one hundred millions of people in the country, we have about \$4,700,000,000 in the savings banks belonging to ten and a half million depositors. This may seem an amazing sum of capital and number of depositors, but when a comparison is made with other countries and a balance is struck it is found the United States is near the end of the list in the percentage of savers to population.

The possibilities for the greater promotion of habits of thrift and saving among people are indeed extraordinary. With remarkable opportunities in the United States for increasing foreign trade; with bumper crops in every section of the country; with gold pouring into the coffers of the banks; with every appearance of unprecedented future prosperity, the fact is apt to be disregarded that the other great commercial nations of the world are involved in a war of frightful destruction and economic waste; that after the war these nations will need funds for reconstruction and the United States will be called upon to supply them; that for some time to come this country will not be able to secure capital, as in the past, from France and Great Britain, for the purpose of carrying on new enterprises. The United States must finance itself.

No fear need be had for the immediate future, but it is inevitable that the time is coming when this country must meet the test of financing practically the entire world. Preparations are being made for defense in the event of war; preparations should also be made for peace. Adequate credit machinery can be developed and perfected, but it will assuredly require a sufficient amount of capital to maintain properly and keep in good running condition this credit machinery.

How is this capital going to be secured? Through education; by calling the attention of the people to the lack of thrift in the country, and the beneficial results of practicing thrift; through a systematic nation-wide campaign to promote thrift and saving. It surely is to the interest of all citizens, whether banker or business man, editor or professional man, employer or employee, to be a party to such a movement.

This is the object of the nation-wide campaign instituted the first of the year by the American Bankers' Association.

## DON'T BE EXTRAVAGANT.

"Live Within Your Income," Keynote of Nation-wide Thrift Movement.

"Live within your income" is the keynote of the great nation wide thrift movement, and be not so wasteful.

The strength of Rome lay not in the time when Romans were extravagantly spending their millions in feasts and games; when people were flocking from the country to the city; when Romans were too lazy even to play their own games, but hired gladiators not only to play, but to die, for their amusement; it lay not in the time when the young Roman millionaires spent their time at the baths and in feeding on nightingales' tongues and on oysters brought in wet moss from the shores of Britain; when \$175,000 was paid for roses at a feast, and when her citizen soldiery was replaced by hirelings, but in the time when the Roman farmer was his citizen and statesman and depended not upon the hired others, but upon himself, for performing the duties of the family and the state.

The entire world at the beginning of the present war started to save money. It is a curious fact that such a destructive process as war sometimes is a benefit to a nation. It increases the total efficiency, and it increases the total saving. Let America be not too free to cast criticisms upon our foreign warring sister nations. It may be that the increased thrift and the increased efficiency and the increased strength of character brought about by this great crisis, so affecting the nations of Europe, will do for them as they did for us in our civil war—produce characteristics and produce men and women that in the years following the war may offset the enormous waste and destruction brought about by it.

No amount of wealth will replace character. Wealth will never take the place of personal righteousness, but the characteristics of thrift and economy will do more than anything else to bring back the type of American that made New England, and that makes any nation, strong and great. And by what we save only can we measure our future wealth, whether as individuals or as a nation.

Smiling again? Bully!

## EGGS FOR FOOD IS NEW PLAN

Kansas City.—Decreased consumption of meats owing to abnormally high prices has resulted in a corresponding increase in demand for eggs. Dealers estimate that about 1500 cases of 30 dozen each are being consumed daily in Kansas City. Wholesale prices are about five cents a dozen higher than a year ago, but are still cheap in comparison with meat.

Prices are higher in the face of the fact that storage men are taking fewer eggs than last year. Stocks in cold storage in the United States June 1 were about 500,000 cases less than a year ago.

In the past two years profits derived from storing eggs have been rather little or nothing and resulted in reduced operations this year. On June 1 stocks in warehouses of the United States were 2,967,000 cases, compared with 3,423,000 cases a year ago. The smaller storage stocks probably will cause higher prices than usual next winter.

It is all over now but the campaigning and the voting and the counting and the shouting.

The average husband is just like a bass drum. He makes a devil of a noise when he is empty.

## THE UNIVERSAL INSTRUMENT

Thirty years ago the telephone was a luxury. Today, through personal initiative and private enterprise, it has become a necessity within the reach of everybody. Where once a business had but one telephone with a limited talking range, today that business has service with a range three-quarters of a continent broad, and every branch of every business is linked to every other by an intercommunicating telephone system.

The telephone has earned its responsible place and there are now 8,000,000 Bell telephones in this country, over which go 26,000,000 talks daily.

Every Bell Telephone is a Long Distance Station.
