PERSONAL-LOCAL

Delbert Taggart is a visitor to Boise today.

Robert Odell is home for a few days from the hills.

A. A. Robbins, of Vale, was a visitor here Wednesday.

Mr. and Mrs. L. J. Aker were passengers to Boise today.

A son was born to Mr. and Mrs. Wm. Reed on the 21st.

A son was born to Mr. and Robert L. Adcock on the 14th.

C. M. Crandall, of Vale, was a passenger to Boise Tuesday.

A son was born to Mr. and Mrs. Wm. Walker on the 18th.

A son was born to Mr. and Mrs. W. H. Brooke on the 25th.

A daughter was born to Mr. and Mrs. J. H. Howland on the 14th.

A daughter was born to Mr. and Mrs. George McLean on the 25th.

Miss Helen Crooks was the guest of Miss Cayou at Vale Wednesday.

Everett Wisdom is home from Ironside where he was doing some painting.

The Cattle and Horse Raisers Association will hold a meeting here on July 31st.

John Reed dropped off the train this morning with his line of cartridges and guns.

Mrs. Con Ryan is home from a visit with her daughter, Mrs. Dick Scott, at Drewsey.

Mr. and Mrs. Fred O. Mahan of Ontario, are spending the day in Baker.—Monday Herald.

William West and daughter and Mr. and Mrs. Albert Tucker, of Westfall, were here Wednesday.

Mrs. Rex Marquis will leave this week for Rocky Ford, Colo., for a visit with relatives and friends.

Mrs. J. W. Gardner and Mrs. J. P. Gardner, of Walla Walla, are the guests of Mr. and Mrs. W. H. Cecil this week.

Miss Sadie Fishbeck was here this week from Coos Bay, where she has been for the past year. She left for her home in Emmett.

E. W. Howland is home from a trip to the mountains around Payette lakes. He found fishing good, but the birds are scarce.

Recruiting officers will be here on August 2 for three days for the purpose of getting recruits for the Oregon National Guard, which is some eight hundred men short.

Judge and Mrs. King are home from an outing at Starkey. It is not the same up there now that the Doctor and his excellent wife are gone. They have a nice place, but the home air has gone.

Alex Lochhead of Ontario and Brad Moss, of Drewsey, his son in law, have purchased 200 acres from George Howe. The place will be used as the winter feeding grounds for their stock.

Prof. Bailey was up to Brogan Saturday with the grangers. He reports a good crop of peaches and pears and half a crop of apples. Most of the orchards are young, but the trees are well filled.

The percentage of daily attendance of pupils in rural schools of Oregon is the highest in the United States, according to a letter from J. L. O'Brien, school extension agent of the United States bureau of education, to State Superintendent of Public Instruction Churchill. Oregon's percentage is 90 6-10, and Connecticut is second with 88 4-10, Massachusetts third with 86 per cent.

Mr. and Mrs. W. E. Lees and children were in Boise several days this week visiting with friends. Mrs. Lees got some very good ideas in regard to public fountains while there that may be used in the construction of one here later.

Bathing in the Snake is the popular pastime of the younger sets these evenings, sometimes over a hundred being in the river at a time. There is a great need of a bath house and if the young folks would get together some plans for building one could easily be worked out.

Mrs. Amy Stingle is home this week for a visit. Amy says that she finds it difficult to raise pigs, dogs and chickens at the same time and has given up the chickens for the present but will be prepared another season so she can have fried chicken when any of her friends call.

Mayor Cole was here for a few hours today. He says that business is picking up in Vale since the prospects of the Warm Springs project are looking so good. There is little opposition to the project and it looks as though there would be no trouble in placing the bonds.

F. C. Boyer will leave in a few days for a trip to the trade centers for his fall stock of goods and those desiring something special should place their orders at once. Mrs. Boyer will not be able to go along this year, because the store is short handed with one boy in Montana and one on the border. It will take a month to do the work.

Dick Dearmond attended the community picnic at Parma last week and had his auto stolen. The machine was later found at Baker and the thieves placed under arrest. There was also an auto stolen from Baker and the auto and thief picked up in Canyon county, so the authorities believe they have captured a gang that has been working together and running the stolen cars out of the country. One of the thieves was an old offender out on parole.

There was also an auto stolen from Baker and the auto and thief picked up in Canyon county, so the authorities believe they have captured a gang that has been working together and running the stolen cars out of the country. One of the thieves was an old offender out on parole.

DAIRY STOCK FOR PAYETTE VALLEY

Professor F. R. Brown, who has been at the head of the agricultural department of the Payette schools during the past year, arrived from Everett, Wash., this week with two car loads of high grade Holstein cows and heifers, principally heifers, which he purchased for the farmers of this community who are connected with the Farmers Co-operative Creamery. This is the finest bunch of dairy stock that has ever been brought into the Payette valley. The herd will be apportioned among 21 ranchers who are building up dairy herds.

This dairy stock has been carefully selected by Professor Brown, whose study and experience well qualifies him for the work of selecting the herd. The price that will be paid by the farmers ranges from \$30 to \$100 per head, which means the cost of the cows where purchased and the actual expense of getting them here.

Do not junk your old auto tires until you see us. We make a good tire out of two old ones. Kroessin Harness Co.

The Brazilian navy has a power boat which develops 6,400 horse power—equal, we believe, to the power developed by the average American citizen.

MALHEUR.

Failing to make a sharp turn on the road midway between Malheur and Brogan, Phillip Edwards and a traveling companion, autoing to Brogan, had a narrow escape last week, when their car plunged suddenly off the grade, diving into the channel of Willow creek. As it plunged downward it turned and the two occupants were pinned beneath it, under the water. Both escaped without serious consequences.

The failure of the machine to take the turn is laid to the presence of a large rock in the middle of the road, which deflected the front wheels from their course.

The accident is almost identical with the one which befell Mrs. Eldora Hall and party, only seven miles from the point where the Phillips auto plunged off the grade.

Another automobile accident occurred as Mr. Earl Van Buren and Mr. G. Lawrence were returning from Westfall to Ironside by auto, when they ran off the grade at Clover creek, the car upsetting. They were pretty badly shaken up but otherwise not seriously hurt.

F. M. Beck, of Huntington, passed through Malheur Friday on his way to the Prairie City country to buy horses for shipment.

Miss Rhoda Matthison and her sister spent one day last week at Mrs. Florence Woodcock's picking berries.

Mr. Dellos was down from Antelope flat Friday to get some medicine for his mother who is ill with spotted fever. All the other members of the family had the spotted fever about this time last year.

Mrs. Chet Morfit and children are visiting at the Smith home on Grouse creek this week.

Lucille Morfitt spent Friday afternoon with Doris White.

John Boswell and family, from Vale, spent a few days fishing on the head of Willow creek.

John Woodcock, who was in Vale last week having his hand treated where it had been poisoned by the bite of an insect, is improving rapidly and is at home now.

FRUITLAND.

It was with an unusual degree of sadness that we chronicle the death of little Dallas Lyle Schubert, who passed away last Thursday. His death was from septicaemia, or blood poisoning, resulting from two operations on his throat and neck. Funeral services were held Friday at one o'clock, in the Brethren church at Fruitland, and interment was made in Riverside cemetery, Payette.

Dallas was the only child of Mr. and Mrs. Zane Schubert. Mr. Schubert is manager of the Farmers Mutual Telephone Co., and is the son of T. D. D. Schubert. Both the Schubert families and the family of Mrs. Schubert are well known residents and a very large circle of friends extend sympathy in the sad bereavement.

Dallas Lyle Schubert was born in Malheur County, Oregon, at the Snow-Moody pumping plant, August 18, 1914, and died at the home near Fruitland, July 29, 1916. "Of such is the kingdom."

H. B. Strawn, clerk of the school board visited the county commissioner's office in Caldwell Friday and the name "Fruitland Independent School District Number 18," was given the Fruitland school. The concrete basement is finished and construction work on the new building is being pushed by Architect N.

P. Yockey and Grover McGee, contractor, that the building be ready when school opens in September. The Boise Payette Lumber company has the contract for furnishing the lumber for the building.

The Sunnyside school building is being remodeled. More windows are being placed in the east side that the building may have the required amount of light. This school building is about three miles from town, but in the Fruitland district and under the supervision of the same school board and superintendent.

DEAD OX FLAT.

At 8:30 p. m. Saturday, July 22, there was born to Mr. and Mrs. Chas. Herr a nine pound baby girl. Mother and child are doing fine.

Mrs. Welsh, recently from the Colville country in Washington, is staying with Mrs. Herr at present.

G. R. McDonald, who has been working in the big fir door factory at McCleary, Wash., returned home

last Friday and went to work Monday for Clarence Barker.

C. O. Douglas has ordered a J. T. Case separator and will be in the threshing business this season. The big Case tractor he already has will furnish the power.

Mrs. Cora Hand, who has been the housekeeper on the Chaffee ranch, is now working in Weiser.

JUNTURA.

Bob Stanfield shipped out 26 more carloads of sheep on Tuesday; and they say he has more to follow. Mr. Stanfield is certainly some sheep man and is a striking example of the modern stockman who is in big business and who applies himself to the pursuit of it, with as much zest as some men apply themselves to pursuit of pleasure.

DRY LAND RYE AT JUNTURA
Smith Wilson came in Saturday to get a load of wire for T. C. Jones, a

Miss Lessie McDonald MATERNITY NURSE Ontario, Oregon

neighbor. Mr. Wilson is very optimistic about crops this year and says that when a man thinks you cannot grow grain on dry land in this country he is mistaken. While he admits the frost injured his garden this year, he also states that he has rye five feet high and so thick you cannot walk through it.—Juntura Times.

Resources of Oregon banks, comprising 84 national and 177 state institutions, show an increase of \$8,192,930.73 in the past year, according to the combined report of all these institutions compiled by S. G. Sargent, state superintendent of banks.

THE MAN

Who buys and reads his home paper demonstrates both his patriotism and his intelligence by the act.

The merchant who buys his printing from his home paper gives a practical demonstration of his belief in the policy of trading at home

This town is made up of two classes of people—those who DO and those who DON'T. Don't be a "don't."
