As the name implies, the new publication hails from Crane, Harney county's railroad town, and is not inoculated with any hyphenated bacilli but is strong for the stars and stripes, the American eagle and other emblems of our beloved country.

The American's first issues presage its success for in typographical appearance, as well as editorial substance the American demonstrates that it is entitled to the unstinted support of the business men and citizens of Harney county in general and Crane in particular. Messrs. P. J. Gallagher of Ontario, and Geo. E. Carter, formerly of this city, are the publishers of the American and should prove a combination which will win both for the city and county and for themselves, for their work will merit success.

Trow of the fair association received word today from La Grande that on Wednesday in the 2:17 trot the winner broke the record for this state over a half mile track going under the wire in 2:14 1/2. In the derby for a mile and a sixteenth the winner negotiated the distance in 1:52, which also is "going some."

Secretary Waddell reports that 100 horses will come to Ontario among them being 25 running horses that with a flooded track records will certainly be broken here.

The management of the fair immediately got action to flood the track and sunk a well which is flowing 300 gallons per minute so that the track will be put in excellent shape.

With so many horses and so excellent a card the management predicts that the first day's races will equal the best of the week.

To boost for the fair the Ontario band will give a concert at Fruitland tonight.

ADDS TO PREVIOUS REPORTS OF EAST'S GREAT PROSPERITY

William Laxon, of the Toggery is back in Ontario from a three week's trip to his old home in Iowa and is confirming the continued story of the prosperity now reigning in the east.

"Iowa farmers and businessmen," says Mr. Laxon, "are rolling in wealth and this is a fair example of what is taking place. The day I arrived in Iowa a report was given out by state officials that there was one automobile for every 13 inhabitants of Iowa and the day before I left a second report was out showing that there was on car for every eleven residents of the state."

"While Iowa is prosperous and business is fine there Ontario looks pretty good to me and this is the place I want to live."
