### EVERY BODY KNOWS IT

When You Wear a Tailor Made Suit

There is a peculiar distinction in the fit and workmanship which puts it in a class by itself, and the wearer in a class by himself, with other tailor garbed men.

When we make it your suit is made to fit you, and not a wooden dummy. No two forms are exactly alike, hence no suit patterned after a dummy will give you an exact fit, such as you get when we take your individual measurements.
