THE WEATHER AND STOCK.

A chinook last Saturday carried away the heavy fall of snow of the day before and very little has fallen since, but the weather tightened up and little has gone since. The nights have been quite cold, the minimum being reached early Thursday morning when the mercury registered ten below.

The stock problem is acute and owners are up against it right. With the hay supply about exhausted and the ground still covered with snow, the situation is serious.

Several bunches of cattle will be driven to the Snake river valley, and several hundred head have been turned out along the Owyhee canyon. E. A. Stauffer started some two

THE OSBORN MILLINERY

EX-PRESIDENT THEODORE ROOSEVELT.

The strenuous citizen of Oyster Bay who recently voiced his opinion of the proper course to pursue if the United States should be drawn into war with Germany. According to his views America should strike and strike hard and quickly. He is said to have plans for personally leading a force of 500,000 Americans against the Teutons. How he would get them there he has not said but in all probability they would go via Canada. He recently gave public his willingness to give the service of himself and his four sons to the country if war is declared. Strange to say he has not been heard from since the Kaiser's dozen blocked President Wilson's armed neutrality resolution.
