Disease and Cold Air.

Diseases cured or improved by cold air are specified in a medical magazine as malaria, tuberculosis, digestive disturbances, yellow fever, tetanus and organic troubles affecting the blood pressure. Cold air contains more oxygen, requires fewer respirations and less heart energy—vital matters when the heart is affected, as is the case in fevers and wasting diseases. The magazine hints that a study of arterial tension in cold climates would yield the "key to much which is now looked from us" of the benefits of cold air.

All Happens in a Second.

A second is the smallest division of time in general use, and when we consider that in one year there are about 31,558,000 of these periods it would certainly seem as if it was enough for all practical purposes. But, after all, a good deal can happen in a second.

A light wave, for instance, passes through a distance of about 186,000 miles in this length of time. The earth in itself moves in its orbit at a rate of about twenty miles a second.

A tuning fork of the French standard vibrates 870 times per second to produce the note A on the treble staff.

ALL THE YEAR 'ROUND.

Oregon Short Line week-end and Sunday rates have been so popular that they will be continued indefinitely. On sale every week, all the time. They are for your convenience; use them frequently. Ask O. S. L. agents.

We want so much to put one of our electrically operated Apollo Player-Pianos in a home in Ontario that we will make a big discount on the first one, knowing that enough orders will follow to warrant the sacrifice. It plays by hand and pedals also. A letter of inquiry will do no harm. Or you may ask Mrs. Weese in Ontario. Wise Piano House, Boise, Idaho. 471f
