FEEDING BROOD MARES DUE TO FOAL IN SPRING

Mares due to foal during the spring months need a nourishing winter ration. A rapid development of the young colt is essential if a healthy yearling or two-year-old is desired.

Proper feeding of the brood mare during pregnancy determines in a large measure the strength of the colt at birth. A grain ration of three parts oats and one part corn by weight serves very well. If timothy or mixed hay is fed as roughage a handful of oilmeal should be given at each feed. The digestive tract will be kept in better condition, and the hair coat will be much sleeker if oilmeal is used. Oilmeal is unnecessary when clean clover or alfalfa hay is fed.

Horse breeders, according to Dr. H. H. Havner, in charge of live stock extension at the Pennsylvania State College School of Agriculture and Experiment Station, prefer to feed some wheat

The man who is breeding every mare old enough to the best station available and is taking proper care of the offspring is the man who is sure to be rewarded. There are plenty of men who have bought and paid for farms within the past ten years by their pure bred draft mares. The mare and foal pictured are Percherons.

bran in connection with oats and corn. The present high price of mill feeds, however, has led many feeders to reject bran. There is no reason why wheat bran should not be rejected in the ration if oilmeal is given in the amount recommended, said Dr. Havner. Although oilmeal costs more per 100 pounds than wheat bran, the cost of a pound of protein in oilmeal is much cheaper.

There is a tendency to feed horses too much hay. During the winter brood mares may be fed from one to one and a fourth pounds of hay per 100 pounds live weight daily. If clover or alfalfa hay is used only one pound per 100 pounds live weight daily is necessary.

A combination of the grain and hay ration recommended assures a strong colt and a good milk flow at foaling.

Dairy Cow Efficiency. With a good dairy cow the overhead charges are less in proportion to the work done than with a poor one, says C. H. Eckles, dairy husbandry department, University of Missouri.

With a cow producing 150 pounds of fat a year more than half she consumes is used to maintain the body. The cow that makes 450 pounds of fat a year uses the same amount of feed to maintain her body, but it is only about 25 per cent of her total feed consumption. The remaining 75 per cent is used directly for milk making; hence a much larger proportion of her total ration is available for milk production, and the feed cost of a pound of fat or of milk is lower.

We want so much to put one of our electrically operated Apollo Player-Pianos in a home in Ontario that we will make a big discount on the first one, knowing that enough orders will follow to warrant the sacrifice. It plays by hand and pedals also. A letter of inquiry will do no harm. Or you may ask Mrs. Weese in Ontario. Wise Piano House, Boise, Idaho. 47t

Wanted Bids for Clearing. Eastern Oregon Land Company asks bids for clearing 157 acres of land in Kingman Colony. For information apply to Thomas W. Claggett, Ontario. 14-tf

That all of the above described property is situated in Malheur County, Oregon, and that all parties to whom said land has been assessed have been made parties defendant herein, that James P. Anderson claims some right, title or interest in and to some of the above described real property by virtue of tax certificates based subsequent to 1910, but such right, title or interest is subordinate to and subject to plaintiff's liens, and James P. Anderson is a party defendant herein.

That all of the defendants above named and all persons interested or whom it may concern, are hereby notified that plaintiff will apply to the Circuit Court of the State of Oregon for a decree foreclosing the liens against the property, and each and all thereof, and you are hereby each summoned to appear within sixty days from the date of the service of this summons upon you, to defend this action or pay the amount due as shown above, together with costs and disbursements and accruing interest and costs, and in case of your failure so to do, a decree will be rendered foreclosing the lien of said taxes, interest, penalty, costs and expenses against the several tracts of land.

All process and papers in this proceeding may be served upon R. W. Swagler at his office and postoffice address at Ontario, Oregon.

Ben J. Brown, Sheriff.

R. W. Swagler, District Attorney.

First Publication, Mar. 29, 1917. Last Publication, May 31, 1917.

IN THE COUNTY COURT OF THE STATE OF OREGON, IN AND FOR MALHEUR COUNTY.

In the matter of the Estate of Jane D. Patch, Deceased.

ORDER to show cause why Order of Sale of Real Estate should not be made.

It appearing to this court, by the petition this day presented and filed by Edwin J. Patch and Wilmer D. Patch, the executors of the estate of Jane D. Patch, deceased, praying for an order for sale of real estate, that it is necessary to sell the whole of the real estate of said decedent in order that a final settlement and distribution of said estate may be made according to the terms of the will of the said decedent.

It is therefore, ordered by this Court, that all persons interested in the estate of said decedent, appear before the said County Court on the 21st day of April, A. D. 1917, at the hour of 11 o'clock in the forenoon of said day, at the Court room of said County Court, at the Court House in the City of Vale, County of Malheur, State of Oregon to show cause why an order should not be granted to the said executors to sell the hereinafter described real estate of the said decedent, and which said real estate is described as follows, to-wit:

The E 1/2 of SW 1/4 of SE 1/4 of SE 1/4 of Section 29, Township 15 South, Range 47 East of Willamette Meridian, containing five (5) acres, situate in Malheur County, State of Oregon.

Also an undivided one half interest in and to the following described real property situate in Malheur County, State of Ore-
