

MUSIC AND ART.

Music and art uplift human nature. Music and art as necessities in the lives of the people should be accentuated by all who have the welfare of humanity at heart. Unless beauty is brought into the home life our race simply cannot progress; for the scheme of universal progression takes its root in unity that is love—love that is order, law, harmony—and all these qualities synchronized reflect beauty.—Howard Edie.

WATER PORTERS OF QUITO.

The Funny Way They Have In Delivering Their Liquid Load.

About a fountain in one of the principal squares of Quito, the capital of Ecuador, assemble every morning the city's aqueducts. These water porters differ from the less energetic ones of some South American cities in carrying their jugs upon their backs instead of on the backs of mules. Their earthen jugs are deep, have a wide mouth and hold about forty pints.

The porter carries it on his shoulder fastened with leather straps. He never slouches himself from his jar either to fill it or to transfer its contents to that of his customer.

He turns his back to the fountain so that the jar comes under one of the jets of water and listens to the sound of the water in the jar, and his ear is so well trained that he always walks away at the exact moment when it is filled to the brim.

Arriving at the house of a customer, he goes to the household jar, makes a deep bow and disappears behind a curtain of water. Foreigners can never receive without laughing the visit of their aqueduct, the respectful little man who bows to one behind the curtain of water.—*Los Angeles Times*.

OLDEST MAP IN THE WORLD.

It Proves That Postal Routes Were Used in Abraham's Time.

Postal routes of 3,500 years ago when the postman and the circulating library already had been in existence at least 800 years, are shown on the world's oldest map, a treasure that was discovered among the Nippur tablets in the museum of the University of Pennsylvania by Dr. Stephen Langdon, the orientalist from Oxford university. Dr. Langdon considered the map not only the oldest, but the best preserved that has come down from antiquity.

Dating before the time of Abraham, the map shows a comprehensive survey of the region about the temple of Nippur and indicates that the country was under a high state of intensive cultivation. Canals were numerous and served both for irrigation and transportation. They were the mail routes, and a tag has been found for a basket of "books" or literary tablets sent from the library of the Nippur temple to a town about six miles distant, Shuruppak. According to Babylonian tradition, Noah lived at this town and built the ark there. The tag was inscribed about 2,900 B. C.

Some Old Suits.

"Where have you been until this hour?" said Mrs. Lawyer Towit to her late returning hubby.

"I've been looking after some suits," added Towit.

"Yes, I know those suits—the old diamonds, hearts, spades and clubs. Well, this is the last night I'll let you out."—*Buffalo Express*.
