

# READING MATERIAL NEEDED BY SOLDIERS

(Continued from First Page.)

open this fall.

W. C. Brewster, of Portland, who is state manager of the campaign, has asked the library board of Ontario to co-operate in the raising of this fund. Mrs. Dodge, the local librarian, has been appointed manager in Ontario and on Sunday last the board met for the purpose of organizing, but on account of the fair this week it was decided to postpone the drive until next week. There will be another meeting of the board next Sunday, when working plans will be perfected and it is expected that the public will respond readily to the call for supplying the national camps with literature.

The plans as arranged by the American Library Association will render the raising of that amount of money practically simple and easy. Each community is expected to contribute an amount equal to five per cent of its population.

To the soldiers in camp, life is not one continual round of activities neither is it in the trenches at the front or in actual combat with the enemy, but there are usually long hours of waiting when the boys have nothing to do but think and their appeal for reading material has reached the hearts of those who are left at home and hence this organized effort to respond to the appeal.

When called upon to do your "bit" next week it is hoped that those in

charge of the matter will receive a hearty response.

## LIFE AT AMERICAN LAKE DECLARED INTERESTING

mand, and, as I have heard several of them express it, know that the national army is to be made up from the industrious young men who have been ambitious enough to be tied in some manner by business of their own. I have also heard that the old regular army officers are highly pleased with their new commands. They are the kind of officers that men will fight for.

We have plenty of plain, well-cooked food. Nothing fancy, but enough in fact, a man could over-eat if he desired to do so. I have heard no complaints so far about the food furnished; not even from the men who are accustomed to the better things of life. This better class of men realize what they are here for and it

## The Triumphal March of

A NEW CREATION OF SCIENCE AND NATURE

WHEN we announced Bevo recently, our hopes were high. We knew that we had the most unusual soft drink that had ever been offered: A beverage combining the nutritive extracts of wholesome cereals, the zest of Saazer Hops, a flavor all its own and absolute purity. We knew this because, true to our own ideals, we had experimented for years before we were satisfied to say, "We offer you Bevo—it is a different soft drink—it is good and it is good for you."

High as were our hopes for its reception, we have realized them far and beyond our expectations.

Bevo today is an established popular success. Everywhere the same question is asked:—"Have you tried Bevo?"

Now, one final word. We promise you that, in accord with the known principles of Anheuser-Busch and all its products, Bevo not only will forever maintain its present high standard of quality, but as time goes on our great endeavor shall be to make this soft drink even more perfect in every detail of its goodness.

You will find Bevo at inns, restaurants, groceries, department and drug stores, picnic grounds, baseball parks, soda fountains, dining cars and other places where refreshing beverages are sold.

Guard against substitutes. Have the bottle opened in front of you, first seeing that the seal is unbroken and that the crown top bears the Fox.
