ONTARIO, OREGON

Only 10 weeks until Christmas.

THE UNIVERSAL INSTRUMENT

Thirty years ago the telephone was a luxury. Today, through personal initiative and private enterprise, it has become a necessity within the reach of everybody. Where once a business had but one telephone with a limited talking range, today that business has service with a range three-quarters of a continent broad, and every branch of every business is linked to every other by an intercommunicating telephone system.

The telephone has earned its responsible place and there are now 5,000,000 Bell telephones in this country, over which go 25,000,000 talks daily.

Every Bell Telephone is a Long Distance Station.

The United States Government Cooperates

with the 7,500 member banks in maintaining the Federal Reserve Banking System for the protection of the business interests of the country. Through the Federal Reserve Board in Washington it supervises the twelve Federal reserve banks; it appoints one-third of their directors; it deposits its funds largely with them; it guarantees the currency they issue.

This cooperation greatly increases the value of the system to us and our community.
If you are not already linked up with this new national system as one of our depositors you should delay no longer.
