HIGH SCHOOL NEWS NOTES

NYSSA TO DEBATE ONTARIO SPEAKERS

Friday evening, January 18, a debate will take place in the high school assembly hall between Nyssa High School and Ontario High School. The question to be debated is: Resolved, That Oregon should abolish the Senate. Ontario, represented by Clara Craig and Westly Glenn will uphold the affirmative. This is a question which has been much discussed in recent years, not only in our own state but in other states as well.

The High School reopened after the holidays Wednesday January 2, after the usual assembly singing, the students and faculty enjoyed hearing letters read from several of our boys in the service. These letters all expressed the boy's appreciation for the Christmas packages sent by the high school and Honor Guard girls.

At the close of the meeting Ed Fraser, student body president, presented to the school a beautiful pennant, the gift of Arthur Moore, Lee Maddux and Henry Cassidy, who are now stationed at San Antonio, Texas.

Martha Lambert and Eva Duncan of Jordan Valley returned to school Monday January 7 having been prevented by rain and bad roads from returning sooner.

Some time ago D. A. Hillis sent a challenge to three Idaho schools for a contest in typewriting and shorthand. So far he has received but one reply. Prof. Frazer of Nampa high school has accepted the challenge and expressed his willingness to cooperate with Mr. Hillis in making the contest a great success.

Locomotive Whistles.

Ask each one of a company of fifty people to rise separately and remain standing for one minute. There will be fifty different records, varying from ten to sixty seconds. Ask ten workmen each to bring you a short and a long board and you will get twenty different lengths of board. These illustrations are used by a railway man to emphasize the necessity of a mechanical device to eliminate the element of uncertainty as to what constitutes a "long" or a "short" whistle by a locomotive. It is not right, he says, to trust the safety of a trainload of passengers to a guess upon a guess.—Exchange.

THE UNIVERSAL INSTRUMENT

Thirty years ago the telephone was a luxury. Today, through personal initiative and private enterprise, it has become a necessity within the reach of everybody. Where once a business had but one telephone with a limited talking range, today that business has service with a range three-quarters of a continent broad, and every branch of every business is linked to every other by an intercommunicating telephone system.

The telephone has earned its responsible place and there are now 8,000,000 Bell telephones in this country, over which go 26,000,000 talks daily.

Every Bell Telephone is a Long Distance Station.
