Why We Are At War With Germany

By Ephraim Douglass Adams, Executive Head, History Department Leland Stanford Junior University.

"The object of this war is to deliver the free peoples of the world from the menace and the actual power of a vast military establishment controlled by an irresponsible government, which, having secretly planned to dominate the world, proceeded to carry out the plan without regard either to the sacred obligations of treaty or the long established practices and long cherished principles of international action and honor; . . . This power is not the German people. It is the ruthless master of the German people. . . . It is our business to see to it that the history of the rest of the world is no longer left to its handling.—President Wilson, August 27, 1917.

THE GERMAN AS A CHOSEN PEOPLE.

The foundation cause of this war is Germany's firm belief that she alone has the RIGHT to direct the progress of the world and to exploit its resources. For the last thirty years the military autocracy of Germany has seen to it that this belief was taught in the schools, and today that autocracy is reaping the benefits of a blind obedience to its will. German political writing of recent years is full of the idea that the German people is "God's chosen people, destined to impose its 'Kultur' upon all other peoples."

"The German soul is the world's soul, God and Germany belong one to another. Germany is the center of God's plan for the world." "We hope that a great mission will be allotted to us Germans . . . and this German mission is: to look after the world." "Germany is chosen, for her own good and that of other nations, to undertake their guidance. Providence has placed the appointed people, at the appointed moment, ready for the appointed task."

"The German people is always right, because it is the German people, and numbers 87,000,000 souls." "Kultur is best promoted when the strongest individual Kultur, that of a given nation, enlarges its field of activity at the expense of the other national KKulturs." "The attempt of Napoleon to graft the KKultur of Western Europe upon the empire of the Muscovite ended in failure. Today history has made us Germans the inheritors of the Napoleonic idea."

"The further we carry our Kultur into the East, the more and the more profitable outlets shall we find for our wares. Economic profit is of

course not the main motive of our Kultur-activity, but it is an unwelcome by-product." "Our belief is that the salvation of the whole Kultur of Europe depends upon the victory which German 'Militarism' is about to achieve."

These quotations are but a few hundreds of like expression, and the last one cited is from a manifesto signed by thirty-five hundred German professors and lecturers. Reduced to simple terms, the German belief at the beginning of this war was: 'God directs Germany. Civilization advances only by combats between Kulturs in which the stronger and God-directed one has the right to prevail and must prevail. The immediate and present object is to make our KKultur prevail in the East (in 'Muscovy'), and in accomplishing this we shall also gain economic advantages. This is the first step in our world domination.'

Where does America stand in this theory of a "chosen people"? America denies that theory; she denies that God has chosen any one people as His own; she asserts rather that there are many civilizations, each with its own merits and defects, and to each must be left the working out of its own problems.

We Americans are unable to understand, or sympathize with, a people who conceive of themselves as a chosen people, chosen of God—a people to whom all things and actions, however inhuman or brutal, are regarded as permissible, even holy, because of a faith in their superior mission and civilization. To us such a belief is direct evidence, not of a leading, but a lagging civilization.

This German ideal, when expressed merely in theory, even though taught in Germany for the last thirty years, stirred but indifferent interest in other European nations. In this war Germany has revealed in the application of her theory a lust for world power at the expense of other peoples, a lack of good faith, a brutality that has stamped her theory as involving a return to barbarism.

By the application of German theory we were forced, unwillingly, to go to war. But today we know that there was no escape from a war between two contrary ideals. Germany's economic objects are many and large (they will be pointed out), but the basic cause of this war was the German ideal of a dominant nation. That ideal, by Germany's own challenge, is on trial in arms. Against it we must prevail or we shall perish.

ANNOUNCEMENT. To the Republican Voters of Harney and Malheur Counties:

I hereby announce my candidacy for the position of Joint Representative from this District in the next session of the Oregon Legislature, subject to your will in the matter.

If nominated and elected, it will be my aim to promote legislation that will enable the State to provide means for the care of the families of enlisted men; to provide for the protection of Oregon homes and industries, and to carry out the war to a successful and early conclusion.

I will also promote and work for legislation that will tend to increase the production of food stuffs, and prevent profiteering in the marketing of the same. I believe that our first and most important business is to win this war, and next to that, the encouragement of farm production, and if nominated and elected my efforts will be devoted to this policy as well as other meritorious legislation.
