## Two Cars of Exceptional Value

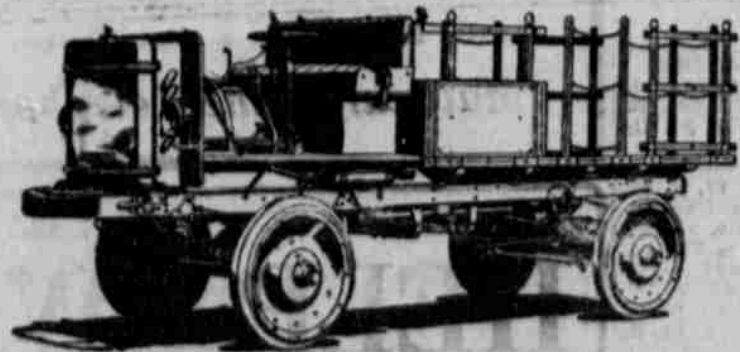

*The Great Nash Six---The Powerful Nash Truck*

No motor car values offered in recent years represent greater efficiency, greater strength, greater power, or more handsome lines than THE NASH SIX which achieves the---

*Economy of Operation, Flexibility of Power  
Comfort in Riding*

It is the car discriminating autoists, those who have owned cars for years, placed their stamp of approval and the demand for these machines has demonstrated the wisdom of their judgment.

## The Nash Truck

*Built for Dependability and Service*

The greatest addition of the man power of the nation in the great war was the introduction of the Nash Truck. No matter what the load may be The Nash is equal to the task of transporting it. Hundreds of these great cars are performing wonderful feats of strength and service over all kinds of roads, in all kinds of weather. The result is a vast reduction in transportation cost, great saving in time.

LET US DEMONSTRATE TO YOU EITHER OF THE GREAT MOTOR VALUES--THE NASH WAY IS THE BEST WAY.

### High School Notes

The O. H. S. boy's basket ball team defeated the team of the Weiser Institute on their own floor last Saturday. Our team played under the difficulty of a small gymnasium with a low ceiling and it looked, at the end of the first half, as tho the Institute would take the game. But as the Ontario boys warmed up to their work things took on a different aspect, and at the close of the game the score stood 26 to 21 in favor of Ontario.

The Weiser Commercial club opened their rooms to the visitors during the afternoon and the boys of the Institute shared their rooms with the team, and also entertained them by showing them over part of the two-thousand acres on which their school is situated. The visitors were further entertained by a dance given after the game.

During the past month the pupils in the Freshman classes in English have enjoyed series of talks given by different members of the class. Various subjects have been discussed, a few of them being: Ways of Beautifying Our City; Oregon Birds; The Animals of the Sea; The Cities of Southern Europe; The Red Cross and Its Work; The History of Ontario; and some scientific subjects which were illustrated by apparatus.

Last Thursday morning the High band which was organized about a month ago under the leadership of W. S. Schimek appeared in concert in the assembly hall. The selections rendered showed the ability of the boys and their director and their efforts were heartily cheered by their fellow students. We hope to enjoy another concert by the band in the near future.

During the three days of the Chautauqua the afternoon session of school began at one o'clock and closed at three in order to give the faculty and students an opportunity to attend the afternoon program. Most of the students attended and enjoyed the program very much.

The students of the domestic art department are still working on the black sateen pinafores for the Belgian and French refugee children. They expect to finish 125 garments before school closes for the summer. They have completed 100.

The Algebra classes are wrestling with graphical representation this week and those of the different classes who cover the year's work in time will take drill in arithmetic thus correlating algebra with the principles of arithmetic.

Miss Vada Morfitt who attended school here last year visited the O.

H. S. last Monday. Miss Morfitt is a student at the Baker High School this year. She was the guest of Miss Alfretta Sage over the week end.

The geometry classes are now at work on the last half of Book IV and have only a little over one more book to cover. They are planning to finish the year's work in time to have a few week's review of their Freshman Algebra preparatory to Junior work in Algebra.

The boys in the manual training department under the supervision of Mr. Boucher are now making some beautiful library tables and cedar chests.

#### Perils We Overlook.

Of the many perils that beset the average individual one of the most serious is a common cold. It is not the cold itself that imperils our well being, but the serious diseases which it leads to. Consumption usually start with a cold, or a succession of colds. It is a germ disease, and germ diseases are most likely to be contracted when you have a cold. A child that has a cold is more likely to contract diphtheria or scarlet fever than one who has not. For this reason every cold should be re-

garded as a peril and gotten rid of as quickly as possible. Chamberlain's Cough Remedy will help you throw it off. Try it. Adv.-mar

**WANTED TO BUY**—A four horse Fresno. B. B. Wood, Ontario, phone 297K2.—9-31

**WHITE WYANDOTTES.** White Wyandotte exclusively. Eggs for hatching \$1.50 for 15. Charles Atherton, Ontario.—9-4t

## Swift & Company Publicity

At a recent hearing of the Federal Trade Commission there was introduced correspondence taken from the private files of Swift & Company, which showed that the Company had been considering for some time an educational advertising campaign.

The need for this publicity has been apparent to us for several years. The gross misrepresentation to which we have recently been subjected has convinced us that we should no longer delay in putting before the public the basic facts of our business, relying on the fair-mindedness of the American people.

The feeling against the American packer is based largely on the belief that the income and well-being of the producer and consumer are adversely affected by the packers' operations, resulting in unreasonably large profits.

Swift & Company's net profit is reasonable, and represents an insignificant factor in the cost of living.

For the fiscal year 1917 the total sales and net profit of Swift & Company were as follows:

Sales	\$875,000,000.
Profits	\$34,650,000.

This is equivalent to a \$3,465. profit on a business of \$87,500.

If Swift & Company had made no profit at all, the cattle raiser would have received only one-eighth of a cent per pound more for his cattle, or the consumer would have saved only one-quarter of a cent per pound on dressed beef.

Swift & Company, U. S. A.
