62 DEAD IN WRECK OF CIRCUS TRAIN

Chicago — Sixty-two persons are known to be dead and 115 injured as a result of the rear end collision of a circus train and a string of empty Pullmans at Ivanhoe, near Gary, Ind. The wreck caused by the collision caught fire and many of the deaths resulted from the flames. The disaster occurred just at break of dawn.

The victims of the disaster were mostly connected in various capacities with the Hazenbach-Wallace show, which was traveling in two sections of a Michigan Central train going from Michigan City to Hammond. At East Ivanhoe a hot box caused the second section to stop. A train of empty Pullmans crashed into it, the locomotive plowing its way through the waycar and four sleeping coaches.

Edward H. Ballard, general manager of the circus, issued a statement saying that figures indicated that the death list would total 54. He said that a hasty check-up of the scattered employees showed a list of 40 missing in addition to the 24 identified dead.

STRAYED OR STOLEN.
