JORDAN VALLEY SEES
GREAT DEVELOPMENT

(Continued from page 1)

OPPORTUNITY.

A colony of Quakers, always sturdy and worthy citizens have purchased several hundred acres of land in the project and a part of them arrived this week, with stock and several wagonloads of implements, etc. to establish their residence.

A. S. Rogers of Rogers Bros. seed-growers of Michigan, of Michigan, of national reputation, visited the tract this week with a view of establishing a seed farm for the growers of seed peas and beans. He was so favorably impressed that he will return shortly with one of their farm experts for a final inspection. He plans first an experimental farm of a few hundred acres.

And so they are coming, from near and from far, to Jordan Valley; the land of opportunity.

Believe me, boys, there's something doing on the Jordan Valley Farms project!

PROFESSOR MASARYK

Prof. Thomas Garigus Masaryk, leader of the Czech-Slovak, who have declared their independence of Austria.

TWELVE NATIONS DECLARE FREEDOM

Philadelphia.—History has repeated itself. More than 50,000,000 people of the subject races of Europe have, through their representatives, now added their Teuton shackles and, in the same room in independence hall where America's thirteen original colonies proclaimed their independence, twelve nations united in a solemn pact of unity and a sacred pledge to "place our all—peoples and resources—at the disposal of our allies."

Dr. Thomas Masaryk, leader of the new Czech-Slovak republic, seated in the same chair freed by John Hancock 142 years ago, was the first signer of the declaration of common aims of the independent mid-European nations.

The signers of the declaration pledged themselves on behalf of their respective nations to untoldy strive to the end that these wrongs shall be righted, that the sufferings of the world war shall not have been in vain. Recommendations for the settlement of the ancient wrongs of the people of middle Europe will be laid before the peace council. It is hoped by that time that they will have been endorsed by all the people here represented.

The people represented constitute a chain of nations lying between the Baltic, Adriatic and the Black seas, comprising Czech-Slovakia, Poles, Jugoslavs, Ukrainians, Lithuanians, Rumanians, Italian Irredentists, Greeks, Albanians, Epirotes and Armenians.

7000 SQUARE MILES TAKEN

Beche Railroad Systems From Oise to Meuse Are Menaced.

Washington.—Summarizing the sit-

March said the Germans have evacuated or been driven out of 7000 square miles of Belgian and French territory since July 18.

During the past week, 400 square miles have been freed from the enemy, General March added. All the coal fields in northern France have been reconquered except for a five-mile tract where the allies' advance is now being pressed near the Belgian border.

General March pointed out that the Franco-American lines from the Meuse to the Oise stand nearly parallel to the great railway line near the Belgian frontier and constitute a threat against that line throughout its entire length.

Noted Woman Educator Dead.

Washington.—Mrs. Ella Young, well known Chicago educator, died here of pneumonia. Mrs. Young was 73 years old.

Grant Rise in Express Charges.

Washington.—The interstate commerce commission approved the proposed increases in express rates.

Does Cheap Service Pay?

THIS is a question people often ask themselves after having had an experience where price is the chief consideration. Rapidly where a man's knowledge, honesty, and skill make up the personal "service," such as in dentistry.

It is always well to know in advance about what the dental service is to cost, and what the service which you want. No one should take chances with their health or their teeth. Artificial substitutes for natural teeth, while often necessary, are but makeshifts at best, and unless properly fitted, will never give comfort and satisfaction.

Swears of affirmations which offer low-priced dentistry and a guarantee for one, five, ten, or fifteen years. Dental work of merit needs no guarantee. There is no such difference in the quality of dental work as there is in the products of any other pursuit. Skill is worth what it costs. So is health. So is comfort.
