

**MACHINERY HERE FOR WARMSPRINGS WORK**  
(Continued From Page 1)

and have established headquarters at Vale and expect to have work on the dam underway this week. If they are given any kind of a fair deal by the weather man they expect to have the reservoir dam sufficiently completed to store the flood waters of the Malheur for next season's crop.

The directors of the district have employed John H. Lewis, who has resigned the position as State Engineer, to take charge of the construction. Mr. Lewis arrived in Vale last week and has taken charge. A. J. Willey of Boise is the conducting engineer for the project.

Now that work is actually underway there is a sentiment developing to extend the boundaries of the district if on a more complete examination it is found that more land can be reached. According to the informal discussions of this phase of the project, which if course are not at all official and not based on figures or extensive surveys, it may be possible to increase the area of the district until a total of 40,000 acres will come under the system's canals.

If this is done it will be necessary so it is believed, to establish pumping plants on ranches above the canals.

**YANKS ENTER LUXEMBURG**

**Americans Are Received With Expressions of Joy By People.**

Luxemburg.—General Pershing entered the city of Luxemburg ahead of his troops. The American commander and his staff drove into the capital in automobiles. The general was greeted by thousands of cheering Luxemburgers and with the blowing of sirens and the ringing of church and school bells.

The Eighteenth infantry of the First division were the first American troops to enter the city.

The Americans were greeted by thousands of civilians, who lined all the streets through which the troops marched. School children tossed flowers in their pathway and each soldier was presented with a bouquet of chrysanthemums.

**Americans Enter Brussels With King.**

With the British Army of Occupation.—American soldiers headed the procession of troops which entered Brussels with King Albert. One battalion of fine looking fellows from the 1st Division, which comes from the coast states, was followed by a battery of artillery from the 53d Brigade. No finer troops marched through Brussels than the Yankees, and none, except perhaps the Belgians, were given a heartier reception. These boys are fresh from the battlefields, for they are the troops which fought so brilliantly in the drive for Audenarde just before the armistice was signed.

**WILLIAM G. M'ADOO RESIGNS HIS OFFICE**

Washington.—William G. McAdoo has resigned office as secretary of the treasury and director general of railroads, to leave the treasury on the appointment of a successor and the railroad administration on January 1 next. It was announced that he had asked President Wilson to relieve him now that the war is over so that he might return to private business after six years in office.

President Wilson has acceded to Mr. McAdoo's request and accepted his resignation.

Retirement was made necessary, Mr. McAdoo said, because of "inadequate compensation" allowed cabinet officers.

The secretary also explained that he is seriously in need of rest, although there is no actual impairment of his health.

The secretary plans to take about three months' rest and then may resume the practice of law in New York.

**CONSTRUCTION BAN LIFTED**

**Government Removes All Wartime Restrictions on Building Operations.**

Washington.—Removal of all remaining restrictions on non-war construction by the war industries board was announced by Chairman Baruch.

All building operations of whatever character may now be proceeded with without permits either from the board or the state councils of defense.

This action was taken, Chairman Baruch said, on recommendation of the building industry and the state councils of defense. The councils had been co-operating with the war industries board in passing upon applications for building permits.

Officials expect that resumption of work will afford employment for thousands of workmen now being released from war industries.

**Total American Casualties Reported.**

Washington.—Total casualties of the American expeditionary forces up to the signing of the armistice were divided as follows: Killed and died of wounds, 36,154; died of disease, 14,811; died from other causes, 2204; wounded, 179,623; prisoners, 2163; missing, 1160.

**Wilson Signs Bill; Prohibition Clause.**

Washington.—President Wilson has signed the emergency agricultural appropriation bill with its legislative rider providing for national prohibition from next July 1 until the American army is demobilized.

**Heber Grant Mermon Church Head.**

Salt Lake City.—Heber J. Grant was unanimously sustained as president of the Mormon church to succeed the late Joseph F. Smith, at a meeting of the council of the Twelve Apostles.

Do you know what "duds" are?

A war term for shells that dont explode; a peace term for clothes that are not as good as you expect.

You dont want "duds;" you needn't have them. Hart Schaffner & Marx clothes are made of all-wool fabrics and made right. We guarantee that they'll do everything you think they ought to do.

**AMERICAN TROOPS TO RETURN SOON**

**General Pershing Furnishes List of Those Selected to Sail for Home.**

Washington.—Demobilization of the American expeditionary forces already in progress with the movement homeward of sick and wounded will be hastened by the return at an early date of eight divisions of national guard and national army troops, eight regiments of coast artillery and two brigades of field artillery.

This announcement was made by General March, chief of staff, on receipt of dispatches from General Pershing.

In addition the following general classes of troops will be returned: Railroad artillery troops, army artillery troops, gas troops, tank corps, air forces and those divisions which were broken up to be used as replacements for other divisions which had seen active service.

Troops returning immediately from England, General March said, will include practically all of the air squadrons, 16 construction companies, one sailmakers' detachment, one Handley-Page training station and several photographic and radio sections.

Secretary Baker supplemented General March's outline of demobilization plans later by stating that General Pershing was reducing his army to a strength of 20 divisions.

At an average strength of 50,000 men a division, which would cover all necessary auxiliary forces, this would mean that General Pershing

would retain 1,500,000 men in France.

The American forces in France, General March said, had taken 44,000 German prisoners, in round numbers, and 1400 guns. He added that the casualties among the American forces in northern Russia were not severe, contrary to reports, and that encouraging accounts of the situation of the forces there had been received.

**\$31,000 in Bullion Missing from Liner.**

Seattle, Wash.—Thirty-one thousand dollars in bullion that is said to have been placed aboard the steamship Admiral Watson at Anchorage, Alaska, November 1, was missing when the vessel arrived in Seattle and search extending from Anchorage to Seattle failed to find any trace of it.

**Additional \$5,600,000 Loan to Belgium.**

Washington.—The treasury has extended another credit to Belgium of \$5,600,000, making total loans to Belgium \$198,120,000 and a total for all allies of \$5,194,575,666.

**Marshal Petain to Visit America.**

Washington.—Marshal Petain, commander-in-chief of the French armies, is coming to America to thank the American Red Cross for its aid to France, according to Red Cross cables.

**One Yank in Austrian Prison Camp.**

New York.—Clarence W. Young holds a world's record. A statement issued by the Red Cross contained the information he was the only American held prisoner by the Austrians.

**Lemberg Taken By Poles.**

Copenhagen.—Polish troops have captured Lemberg, the capital of Galicia, and its environs, according to the Polish Telegraph Bureau at Cracow.

**ALLIES FIND OPPOSITION**

**Plan Under Way for Volunteer Army for Russian Relief.**

Archangel.—The American and entente troops have encountered strong opposition both on the Volga-Archangel railway and on the Dvina river. Owing to the swampy condition of the terrain it has been necessary to confine operations to the waterway and the railway. As the upper part of the river is deeper than at its mouth, the Bolshevik craft, equipped with large guns, have been better able to maneuver than the entente ships, and have prevented the occupation of Kotlas by the entente. A plan is under discussion in military circles for the creation of a volunteer army for Russian relief, should the allies agree upon a policy of feeding Russia.

**La Follette Probe Abandoned.**

Washington.—Investigation of the alleged disloyalty speech of Senator La Follette, at St. Paul, more than a year ago, was abandoned by the senate elections committee on a vote of 9 to 2.

**THE MARKETS.**

Portland.  
Oats—No. 2 white feed, \$54.50 per ton.
