How Could He Do It?

A certain well-to-do young business man called at a bank the other day and asked for a loan of \$500.00. The banker promptly took his personal note for the amount.

Why could he do this? Simply because as a young man he commenced doing business thru the bank. He had learned early in life that the bank could help him in many ways and the banker learned that this young man was a stickler and could be depended upon. In fact each had learned to stay by the other. Young men, there is a lesson in this for you. Start now doing your business thru a good bank like ours. Stay by us and we will stay by you.

A good resolution for anyone to make on the threshold of a NEW YEAR.

LAST YEAR IS GONE;—FORGET IT.

Let us build, however, upon the ashes of a dead past a more permanent foundation for future success.

THE NEW YEAR finds us better prepared than ever to handle our ever increasing business. The manufacturing end is running like clockwork; our distributing yards are marvels of efficiency as purveyors of building material to a critical public; last, but not least, our architectural department has been developed to a high point of artistic and practical perfection of which we are justly proud.

THIS ARCHITECTURAL SERVICE IS FREE—INVESTIGATE IT—MAKE USE OF IT.
