and expects to win all the prizes at the fair and at the show which is to follow.

Ontario folks who are interested in the general movement of making Ontario a prettier city in which to live and who like flowers may get those bulbs by sending their order to any of the members of the committee, or to Prof. Conklin, or by phoning the Grange Hall where orders will be listed.

**ONTARIO DISTRICT FIRST IN STATE OVERSUBSCRIPTION**

Chairman, D. M. Taggart of the Armenian relief drive today received a telegram for J. M. Hansaker, state secretary in acknowledgment of the check for \$1195 forwarded last Monday which said:

"Thanks for check, yours is the first district in State which has reported oversubscription. Many thanks to people and the workers."

Mr. Taggart still has some of the local districts to hear from and with money sent in by the churches, and that solicited in this section by Idaho towns near by, feels certain that this district is entitled to a record of fifty per cent over subscription.

**Dollars and Cents.**

Counting it only in dollars and cents, how much did that last cold cost you? A man may not always stop work when he has a cold, but perhaps it would be better if he did. It takes about ten days to get completely rid of a cold under the usual treatment. That time can be much shortened by taking Chamberlain's Cough Remedy and proper care of yourself. In fact, a bottle of this remedy in the house is a mighty good investment during the winter and spring months.

Although he smokes smelly strong cigars  
**"DON'T CHANGE YOUR HUSBAND"**

**UNUSUAL CAMERA EFFECTS OBTAINED IN BIG PLAY**

Quaint Architecture and Rolling Expenses of England Effectively Used by Tucker.

The oft accepted theory propounded ament the unsatisfactory atmospheric conditions prevalent in England is said to be set at naught by the camera effects achieved in George Loane Tucker's screen production of "Mother." The story is said to lend itself admirably to beautiful scenic effects and striking panoramic views. George Loane Tucker has taken full graphic possibilities offered by a picturization of Mr. Philpott's book with its rural settings and pastoral beauties.

Selecting as a locale the hills of Dartmoor, England, made famous by "Lorna Doone" and other widely read novels, the American producer has secured a series of what are considered surpassingly beautiful views, embracing the quaint architecture and rolling expanses of a section in England hitherto undiscovered by the eye of the motion picture camera. Mr. Tucker has also succeeded in securing a most realistic moonlight effect, exquisitely tinted and toned.

Said to be second only in importance to the scenes aforementioned are the striking effects obtained by recourse to night photoplays. One shot taken by Mr. Tucker shows a light burning in the window of a small cottage nestling in a valley shadowed on either side by the hills of Dartmoor. The craggy peaks and sheer walls of the surrounding country stand out as though photographed in clear sunlight, while the little house with its shining beacon is silhouetted clearly in relief. A number of clever double exposures also add greatly to the camera values.

The six-part screen version of "Mother" starring Elizabeth Riedon and sponsored by McClure Pictures, is expected to set a new mark in the matter of artistic locations and stereoscopic photography.

**SHEEP SHEARING**—Sheepmen, I have a five man portable plant, ready to go anywhere and shear large bands as well as small ones. Let me give you my terms.—Clarence Johnson, Ontario, Oregon. Adv.14-17\*
