KAHN POINTS WAY TO ESCAPE HEAVY TAXES

California Congressman Says People Must Cooperate With Government

Congressman Julius Kahn of California, senior member of the Military Affairs Committee of the House, in a signed statement given out at Washington, reviews briefly some of the problems confronting the government in post-war finance and urges the country to help congress hold down taxes. He said:

"How is the United States going to pay her war debts which are now beginning to flood the nation's treasury? The outflow of public funds today is almost on a par with the expenditures made while the war was raging. Although there are no more munitions or implements of war to be purchased, the engines of destruction which American factories created to bring about the downfall of the Imperial government of Germany have not all been paid for. Then there are the heavy expenditures incident to readjusting the world from a war to a peace basis.

Reconstruction Cost Heavy. "It is no news to students of history to be told that the expenses of post-war reconstruction have always been as great and many times greater than the actual war outlay. Food must be shipped to our boys who are still on foreign soil. Money must be raised to further projects having to do with fitting these noble heroes of ours with suitable occupations. Those who have been trained must not be made to come into competition with the sound."

"Where is the money to come from? The people themselves, although they lent patriotic and wholehearted support to the government's war program and made unprecedented sacrifices

keenly felt the effect of the taxes imposed in the revenue bill such as they had never faced before and would have not submitted to except in view of extraordinary circumstances. Now that the war is over we must find some way of raising money to finance the various necessary projects confronting the nation.

People Must Cooperate. The people must cooperate, and they can cooperate without paying heavy taxes. They can continue to invest in War Savings Stamps, Liberty Bonds and other government securities, and help the government by helping themselves.

"The government offers its citizens a two-fold proposition, mutually helpful. Funds can be raised to help the government meet its obligations, by the patriotic cooperation of the people, who are at the same time making an safe investment as can be made in securities, backed by the most stable business on earth, that of Uncle Sam."

Glass Is Thinking of Fifth Loan—Are You?

"I say that it takes a higher type of patriotism to serve this nation today that it required in the delirium of war, and that it is the duty of the American people, and I believe they will regard it as their privilege, to approach that question with some degree of patriotism and not altogether upon a commercial basis." Secretary of the Treasury Carter Glass.

What Fordson Service Will Do For You

There are two big factors to consider when you are buying a tractor—both equally important—the tractor itself and the service rendered.

A tractor which is standing idle because the service station is far away or because the dealer hasn't the proper parts is a poor investment, no matter how well the tractor itself may be made.

Fordson Tractors are selling by the thousands every month and are giving universal satisfaction all over the world because of this:

The tractor itself is made as durable, dependable, efficient and economical as the best engineering skill, the finest materials and workmanship can make it.

And added to this, wherever a Fordson Tractor is sold, you will find parts and service as quickly and easily available as the kerosene you put into the tank.

Our service means this to you. First, that we will thoroughly instruct you how to get the most out of your tractor—how to operate it properly so as to avoid trouble—how to make all minor repairs and adjustments so that only on rare occasions will you have to call for help.

Then when you do require help for repair work or parts you will find us ready at a moment's notice.

Our stock of parts is complete, our mechanics are experts.

Fordson service is delivered to your farm.

To own a Fordson means that you own a durable, dependable, economical tractor that will serve you every working day in the year.

The Fordson Company makes it durable and dependable.

We keep it so.
