

Swagger Coats in Profuse Array

With the gradual resumption of active civil production, the great cloth mills are producing fabrics different than we have seen the past few seasons.

Vigoreaux, woven in Rookie, Grey, Navy and Black, has caught on again with the distinctive dressers. The coat illustrated is made of this goods; the smart set of the shoulders is revealed by the soft scarf collar. It is full lined with lustrous silk—an ideal garment for all the uses of spring and summer.

Dolman and cape effects are produced in a variety of coats, and these first days of spring are productive of lively retailing of this type.

Your critical examination of these new spring styles is invited. In addition to positive surety of correct mode, you will find them substantially tailored and finished. They are durably made, to insure for you the retention of lines under most severe wear.

Distinctive New Wash Fabrics

All those who are anticipating Spring and Summer Clothes will be immediately interested in the wonderful collection of new wash fabrics shown in our Dry Goods department. A visit to this department will suggest many new ideas.

If you just had one wish—yes, absolutely anything you might wish for, what would it be?

Don't be in a hurry—think very earnestly—what can be

"THE GREATEST THING IN LIFE"

"The Greatest Thing in Life"

WEALTH? certainly not, for you know money alone never brings lasting happiness.

POWER? scarcely, for you know how empty power is to bring joy.

LONG LIFE? No, because you could have no joy in life after you had outlived those you love.

LOVE? No, for after all, you cannot be simply selfish with this flesh.

No, don't give it up. There's no need of that. Go see the latest D. W. Griffith picture, and then make your wish.

Pardon Us--We Could Not Reduce the Noise

With the carpenters busily engaged in renovating our store for the reception of the stock of **GROCERIES** which we are to open for our customers on **APRIL 5** there was so much noise that often we could not hear the phone ring.

We trust our many regular meat customers will overlook our short comings this week, and will not forget to phone their order for Meat for Sunday Dinner.
