John Johnson, a wool buyer of Boise, was an Ontario business visitor last Monday.

A. I. Cockrum left for Boise Monday evening to attend a Shriners' Meeting.

Mrs. W. W. Wood entertained the Wednesday Bridge Club at her home Wednesday.

### MOTOR TRANSPORTATION LINES PRESENT BUSINESS CHANGE

Making money by establishing motor lines for the transportation of passengers and freight presents today one of the best fields of opportunity for the man with a little capital at his disposal, in the opinion of the United States Tire Company.

The development of lines of this sort between towns and cities has only just begun, and is certain to grow tremendously in the next few years. The opportunities are especially good in sections where railroad service is not good. But even in parts of the country where the railroad schedules are the best auto lines are doing a good business hauling freight.

The perfecting of the large pneumatic tires of the United States Tire Company has been one of the most important steps in making this development possible. Big vehicles are necessary to carry heavy loads of passengers or freight and the big pneumatics makes it possible for trucks and large buses to travel between towns at a speed and with comfort unobtainable on solid tires.

Passengers can be carried over long distances with as little jar as in a limousine, while fragile commodities, such as eggs, can be hurried to the market with little danger of damage. Incidentally, the cars can be operated at much less expense on pneumatics than on solids.

### DREAMLAND ATTRACTIONS

Today and Tomorrow:  
Friday and Saturday  
CHARLEY CHAPLIN  
In  
"SHOULDER ARMS"  
also  
Bennison Special, "Speedy Monte."

### HIGH SCHOOL NOTES

The Ontario Parent-Teacher's circle met in the assembly room of the high school Tuesday afternoon April 22. President Mrs. C. E. Bingham presided. The program was as follows:

Song ..... Santa Lucia  
Girls of Departmental School  
Play ..... "Wee Davin"  
Seventh and Eighth Grades

Scene I. Health Crusader's Song by girls of Modern Health Crusade.  
Scene II. Song, "Rosebud's Mistake"; Girls of Departmental school.  
Scene III. Song, "Bird of the Azure Wing"; Girls of Departmental school.

The program was followed by the usual business session. At the close of the afternoon a light lunch was served by the Domestic Science girls.

The Seniors are hard at work on their class play to be given sometime during Commencement week.

Lola and Darrel Houser, who have been absent from school for the past two weeks because of Lola's sickness, returned to school Monday.

Prof. Young, who was confined to his home a few days last week because of illness, is again able to resume his classes.

The girls of the physical training classes of the public and high schools are busily preparing for their May Festival to be given May 5.

Elden Madden, who has been absent from school for the past two weeks because of illness, returned to his classes Monday.

Viola Husted, who has been absent from her classes for the past two weeks because of the illness of her aunt, returned to school Friday.

Miss Smith, who has been quite ill, is improving, but as yet is not able to resume her classes.

The annual medical inspection of schools began Wednesday morning in the East side Public School. The Pupils are to be examined for defects of the eyes, ears and teeth, and for the presence of adenoids and other nasal obstructions, enlarged tonsils and general physical condition. The examination is to be conducted by the local physicians, who are all contributing their services.

Jack Peterson returned to school Monday after an absence of a week because of illness.

Frank Dorman has left school for this term to work for his father on

one of the Dunphy and Dorman ranches near Welser.

The Sophomores and Freshmen are preparing very mysteriously for their literary programs to be given in the near future.

Monday marked the beginning of the last period of the school year. Reports were given out the middle of the week.

Aubrey Dean, who has quit school to help on his father's ranch, was an interested visitor at the literary program Friday afternoon.

Paul McCulloch visited school Friday afternoon and was enthusiastically greeted by the students. Paul is rapidly recovering from an injury received several weeks ago.

Dr. Louise Richter will address the girls of the high school and the seventh and eighth grades Thursday morning and Friday afternoon.

The literary society met Friday afternoon with the Junior class in charge of the program. The following program was very ably rendered.

Piano Solo ..... Charlotte Claggett  
Class Paper, read by ..... Laura Wherry  
The Swindler.

A rural comedy staged under the direction of Martin Moore, who also played the chief character, and assisted by other members of the Junior class.

High School Song ..... School Class Song ..... Junior Class  
Mr. Douglas acted as critic.

A lawn is being sown on the East side school grounds.

Mrs. J. E. Springer is substituting this week in the History classes for Miss Helen Smith, who is ill.

Derco Dearborn returned to school Tuesday after being absent on account of the small pox.

Eldon, "Pat" Fortier, who has been very ill for some time is making rapid progress towards recovery now.

### HOSPITAL NOTES

Mrs. C. E. Sievers of New Plymouth returned to her home there last Thursday after recovering from a slight illness here.

W. A. Kahlin of Portland, who has only been in this vicinity a short time, was in the hospital receiving medical treatment for a broken leg.

C. H. Brown was brought in from Riverside Friday where he had been working on the Warningsprings construction work.

a slight operation last week from which he is recovering rapidly.

Mrs. I. Coil is again an Ontario patient here on account of rheumatism.

Mr. and Mrs. Jay Dibble are the happy parents of an eight pound baby boy born Monday, April 14.

Mrs. C. W. Buckley, also of Payette, was operated on last Thursday.

W. A. Jackson was able to return to his home in Ontario the first of the week after recovering from an operation.

Miss Ruth Hovis returned to her home in Parma last Thursday after undergoing an operation for chronic appendicitis the first of the month.

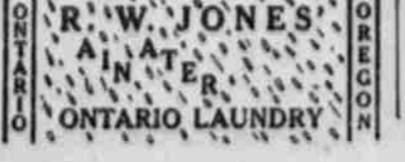

Mrs. W. S. Rowland of Wilder, Idaho, was operated on last week and is doing as well as can be expected.

J. E. Wells was able to return to his home in Burns last week after recovering from a three week's illness.

### SEASONABLE BUSINESS CHATS

"Good morning, Mr. Chance. Why Howdy, Mr. Smith. How's all the folks? "Fine, Mr. Chance, fine." "Mrs. Smith and I are figuring something upon building a new house in the spring, and she told me to be sure and stop at your place and get a plan book." Have you and Mrs. Smith any idea as to what you want in the way of a house? "Oh yes. We have been making rough sketches of our idea of a home for some time." Well in that case, Mr. Smith, we'll go you one better than a plan book; we will send your sketches to our architectural department, at Boise, and have our expert architects draw you a floor plan to scale, embodying your own ideas, and also a color sketch of a suitable elevation showing just how your home will look when completed. "But that will take too long and cost too much, Mr. Chance. That's just where we will surprise you both ways with our service plan; we will have your sketch here in three days, and the cost will be exactly NOTHING. Well! Mr. Chance, that is certainly quick work, and a most generous offer. I will bring those sketches tomorrow without fail." Good bye, Mr. Chance. Good bye, Mr. Smith.

BOISE PAYETTE LUMBER CO.

## Save Time, Save Money, by Getting Machinery in Shape Before the Haying Season

Mr. Rancher, what would you think of a doctor who did not keep drugs on hand in his emergency case, to treat you when you needed help?

You would think of him as an inefficient member of his profession and would go elsewhere for such service.

Your farm machinery equipment is just as important to you as instruments and medicine for the doctor. You cannot do your work without them. And when you need them you need them badly.

We keep parts on hand, so far as possible for us to do so. But it takes time often to get special parts, especially in the middle of the season. Shipments are irregular, labor conditions, strikes and other factors make prompt deliveries impossible some times.

### Look Your Machinery Over

Take a day NOW, look over your machinery, determine the new equipment you'll need, examine what you have and determine which needs new parts to do work well when the season is on. Don't delay. As "a stitch in time saves nine," an hour used today in getting your parts may save days or weeks when the hay season is on and the crop is deteriorating instead of being in the stacks.

Let us help you save that time, and that means money by getting your order for parts soon.

We handle the best lines of Farm Machinery. Our equipment comes from the shops of makers whose names guarantee satisfaction.
