## TRAFFIC REGULATIONS ARE GOING TO BE ENFORCED NOW

City Marshal H. C. Farmer calls attention to the fact that Ontario has some traffic regulations that are being ignored and gives warning that some of the violators are going to come to grief. For their information the following statement of the traffic laws of the city are given below:

We beg to call your attention to the following extracts taken from Ordinance No. 287, regulating the use of vehicles upon the streets of the CITY OF ONTARIO and fixing their rate of speed.

No person shall run, drive or operate any vehicle upon the streets of the City of Ontario at a greater speed than 15 miles per hour except doctors in discharge of their professional duties.

Vehicles proceeding in opposite directions shall pass to the right.

Vehicles proceeding in the same direction shall overtake each other by passing to the left.

Vehicles approaching an intersecting street must be under control and the vehicle on the right of the vehicle approaching shall have the right of way.

No vehicle shall be turned around on any of the streets of said City except at the intersection of streets.

At a street intersection all vehicles turning to the right shall keep closely to the right and all turning to the left shall run to and beyond the corner of the intersection.

No vehicle shall be run, driven or operated on the streets of said City by any person incapable of controlling the same, and no vehicle shall be left standing unattended upon said streets and no part of the machinery of any vehicle standing still shall be allowed to run longer than three minutes at any one time and no vehicle shall stop with its left side to the street curb.

No motor vehicle shall be allowed to operate on the streets of said City without a closed muffler.

All motor vehicles shall be provided with adequate brakes and signaling device and from one hour after sunset until one hour before sunrise all automobiles when in use shall display two white front lights and one red rear light and all motor cycles shall display one white front light.

## VICTORY NOTES NOT TO LOWER IN PAR VALUE

New Issue Has Special Appeal to All Investors, Says Expert.

"Capitalists, as well as the small investor, may purchase the new Victory Loan notes with the fullest assurance that they will hold in the market close to the issue price," declared G. K. Weeks, Victory Loan campaign manager for the Twelfth District, today in calling attention to the strong appeal the Victory notes make to investors strictly from an investment standpoint. He continued:

"It has, of course, been a source of disappointment to subscribers for previous Liberty Loan issues that these issues have gone, even temporarily, to a discount of five or six points in the market.

"While this does not represent a real loss to those who have held their bonds for investment, it is reassuring to subscribers for Victory notes that no such discount is possible in the case of the present issue.

"Discount impossible."  
"A decline of the Victory Loan notes of only one point, to 99 for example, would put them on an interest return of 5.03%. Even during the war, with the prospect of continued large issues, no Liberty Bonds have ever declined to any such basis. The Fourth Loan bonds today, as a matter of fact, are selling to yield less than the 4% paid by the Victory notes at par.

"A similar situation exists in the case of the series of 3% fully tax-exempt notes which are suitable for the larger investors. The first issue of the fully tax-exempt Liberty Bonds bearing 3% interest, in spite of all the liquidation during the war, are selling today to yield only 3.55%.

"Should the Victory Loan 3% notes decline to 99, this would be equivalent to a 4.03% return from its fully tax-exempt note, which would be equivalent to 91 for the Liberty Loan 3 1/2% which now are in active demand in the market at 99."

### NOT HENRY

Henry Griffin, Ontario's bachelor coal man, was embarrassed last Saturday. It was awful for Henry. He just did not know what to do when he arrived at his room at the Moore and found a baby buggy all wrapped up for shipment, at his door, tagged "Griffin, Moore Hotel." Of course Henry entered protests to the clerk who had directed the delivery man from the Ontario Furniture company to Henry's room, and had over looked the fact that there was a John Griffin from Baker on the register. Anyway John got the baby buggy and Henry has recovered from his embarrassment, somewhat. It was a bad scare for Henry.

### AND SMITH CAME BACK.

"Say, Mr. Chance, talk about your nifty service schemes, that color sketch your architects made for us is certainly the last word." "That fellow must surely be a mind reader." "He not only reproduced our ideas completely but managed to arrange them in a manner exactly suited to our needs and as we wanted them arranged, but somehow could not express on paper." "What did Mr. Smith think of the sketches?" "Oh boy, that woman was tickled to death with them." "You know, Mr. Chance, a woman can not get a satisfactory impression as to the finished appearance of a house from a blue print but with your color sketches she can see at a glance just how her house will look when the last dab of paint is on." "She can also appreciate the suggestions in the sketch for the arrangement of the lawn and shrubbery." "That plan suits us to a T and we intend to commence building next week." "All right, Mr. Smith; glad you like our plan so well. In the meantime we will have our architect make you a complete set of blue prints for the guidance of your carpenters, with full working details. Don't mention 'thanks.' The satisfaction of appreciated service is ample thanks for us. "Well, you can rest assured the service is more than appreciated and I will be in here next week for the first load of material."
