The Fordson lightens farm work

IT means something to lighten the farm work these days when help is so scarce. That is where you will find the Fordson a worth-while investment.

A four-cylinder engine, a specially designed washer to purify the air that goes into the carburetor, and a kerosene burner—that's the Fordson.

Be sure you have an Oliver No. 7 Plow for your Fordson

Be sure you have the best plow to go with your tractor, the plow that is designed for it. The Oliver answers every requirement that you will make of your tractor plow. It is strong and durable. Buries all weeds at the bottom of the furrow; turns a uniform furrow at all times; plows clear to the end of the field; is controlled from the driver's seat on the tractor.

Come in and see it and we'll tell you many more advantages.
