WHEREFORE your petitioners pray that this court make and enter an order and decree declaring the proposed drainage district organized; and that the lands described in said petition, or so much of them as shall be found by the court to be properly included shall be within said district as organized, until investment and surveys are made that shall permit elimination of lands not properly included; and that said district shall be known as the "VALLEY

We Told You So The old phrase, "we told you so," is rather threadbare, but we cannot resist the temptation of reminding those skeptical ones of our repeated advice regarding the price of building material. The uninitiated assumed that the close of the war would result in a tumble in building material prices. What they did not consider was the fact that the building material business was one line that was cut to the bone as a direct result of the war. Consequently, as soon as they were relieved from war's responsibilities it was a foregone conclusion that all lines connected with building activity would react in the greatest boom ever before experienced. This is the present situation in a nutshell. The mills are crowded as never before. In the immediate future it is not going to be so much a matter of price as it will be of being able to get material at any price. THE WISE MAN WILL ANTICIPATE HIS NEEDS, AND PLACE HIS ORDER NOW
