Most folks forget that the kidneys, like the bowels, get sluggish and clogged and need a flushing occasionally, else we have backache and dull misery in the kidney region, severe headaches, rheumatic twinges, torpid liver, acid stomach, sleeplessness and all sorts of bladder disorders. You simply must keep your kidneys active and clean, and the moment you feel an ache or pain in the kidney region, get about four ounces of Jad Salts from any good drug store here, take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and is harmless to flush clogged kidneys and stimulate them to normal activity. CORRECT LUBRICATION OF TRACTORS NECESSARY FOR GOOD RESULTS. It goes without saying, of course, that a tractor must be operated correctly in order to secure efficient results. It is just as essential that a high quality lubricating oil of the correct grade exactly suited to the engine be used. But correct lubrication means something more than this—the oil must be used in the right way. The tractor manufacturer builds an efficient power plant which is designed to do certain work and do it economically. To insure this the manufacturer does everything possible to educate the operator in the proper care and operation of the tractor. Through its long experience and vast resources, the Company has produced the exact grade of Zerolene suited to each type of engine. Each grade will do the work for which it is manufactured if used correctly in the engine for which it is recommended. In this way the Standard Oil Company is doing an invaluable service in teaching the tractor operator the science of correct lubrication.
