How Much Do You Spend For the Family Washing ?

Perhaps It Is
More Than You
Think It Is

Have you ever figured it out? Do. The result will astonish you. First, there is the help. Put that down. (Don't forget the food.) Then the Soap. Put that down. Then the Starch. Put that down. Then the Bluing. Put that down. Then the Coal. Put that down. Then the Electricity. Put that down. Those are items you can easily figure.

Then there is wear and tear on washing machines, tubs, washboards, wringers, boilers, clothes lines, clothes pins.

These are represented by a standing investment which must be considered, because these items wear out and must be replaced.

Then figure the cost in energy and in time supervising and seeing the job through; a big and important item.

Figure it all up and you will find that a home washing costs you more than our superior family washing service.

Many women have figured it out in black and white. Every week more women figure it out. The following week they send us their family washing.

Why don't you do some figuring now?

Ask yourself, "Does it pay me, everything considered, to be bothered and fretted with the family washing?"

MAKE DAIRYING EASY OBJECT OF EXHIBIT

Co-operative Creamery Company Display is Varied and Complete—Therefore it is Interesting.

In addition to being the most varied and complete of the industrial exhibits at the Fair this year, that of the Farmers' Co-Operative Creamery company of Payette is a story in itself of farming community encouragement and development. The creamery is not showing shelves of its own products, but a line of dairy and farming machinery of the kind needed by the progressive farmers of the Snake river valley.

Probably the most interesting machine being demonstrated at the creamery booth is the Perfection Milker, the practical contrivance that works as efficiently as a bunch of calves and pays the owner better than a crew of milkmaids. Then there are Anchor-Holt and De Laval cream separators, Alpha stationary engines, Lauson 15-25 tractors (the kerosene burner), Acma feed cutters, power attachments, and various farm implements.

"Yes, quite an assortment of machines we try to sell our patrons and customers," says Manager J. R. Brown. "But you'll notice one thing—that we don't sell hay baliers or anything else to send raw materials out of the country. It's all machinery to keep farm and dairy products at home and enhance their value." And that is the policy of the farmers' couraging Malheur and Fayette county dairymen and buying their products.

The personnel of the creamery exhibit includes J. R. Brown, manager of the creamery; Allen Brown, also of the creamery; C. J. Neff, representing the J. C. Robinson company of Portland; and C. H. Tull of the De Laval Dairy Supply company, San Francisco.

LOST — BETWEEN NYSSA AND Ontario, ladies' large hat toque, lined with dark blue velvet. Not able to lose it. Please leave at Argus office. 92 41-44

Condensed Report of First National Bank of Ontario Oregon

As made to the Comptroller of the Currency, at the close of business June 30, 1919.

RESOURCES		LIABILITIES	
Loans and Discounts	\$498,672.19	Capital	\$50,000.00
Overdrafts	297.93	Surplus and Profits	51,375.92
Notes and Warrants	\$5,818.15	Circulation	12,500.00
Real Estate and Fixtures	38,511.4	Federal Reserve Bank	45,200.00
Stock in Federal Reserve Bank	3,000.00	DEPOSITS	732,173.96
Other Assets	204,099.42		
	\$891,309.88		\$891,309.88

A "ROLL OF HONOR BANK" is one possessing Surplus and Profits in excess of Capital, thus giving tangible evidence of Strength and Security. Of the 25,000 Banks in the United States, only one in ten occupies this proud position.
