How Much Do You Spend For the Family Washing

?

Perhaps It Is
More Than You
Think It Is

Have you ever figured it out? Do. The result will astonish you. First, there is the help. Put that down. (Don't forget the food.) Then the Soap. Put that down. Then the Starch. Put that down. Then the Bluing. Put that down. Then the Coal. Put that down. Then the Electricity. Put that down. Those are items you can easily figure.

Then there is wear and tear on washing machines, tubs, washboards, wringers, boilers, clothes lines, clothes pins.

These are represented by a standing investment which must be considered, because these items wear out and must be replaced.

Then figure the cost in energy and in time supervising and seeing the job through; a big and important item.

Figure it all up and you will find that a home washing costs you more than our superior family washing service.

Many women have figured it out in black and white. Every week more women figure it out. The following week they send us their family washing.

Why don't you do some figuring now?

Ask yourself, "Does it pay me, everything considered, to be bothered and fretted with the family washing?"
