

PRINCE ALBERT
the national pipe smoker

TALK about smokes, Prince Albert is geared to a joyhandout standard that just lavishes smokehappiness on every man game enough to make a bee line for a tidy red tin and a jimmy pipe—old or new!

Get it straight that what you've hankered for in pipe or cigarette makin's smokes you'll find aplenty in P. A. *That's because P. A. has the quality!*

You can't any more make Prince Albert bite your tongue or parch your throat than you can make a horse drink when he's off the water! Bite and parch are cut out by our exclusive patented process!

You just lay back like a regular fellow and puff to beat the cards and wonder why 'n samhill you didn't nail a section in the P. A. smokepasture longer than you care to remember back!

Buy Prince Albert everywhere tobacco is sold. Tippy red bags, tidy red tins, handsome pound and half pound tin humidors—and—that clever, practical pound crystal glass humidor with sponge moistener top that keeps the tobacco in such perfect condition.

CAPACITY OF LOCAL LAUNDRY IS DOUBLED

Addition to Building Made and Additional Machinery Installed — Orders Ordered for Immediate Delivery.

With the completion of the addition to the Ontario Laundry that institution has practically doubled its capacity and is now housed in a modern building 60x85 feet. The additional space was required in order to keep step with the growth of the business due to the increase here in Ontario and the fact that the institution is serving a wider territory than ever before.

The local laundry is now the cleaning institution of a vast territory, and from agencies, east west, north and south for miles it gathers bundles to be cleaned and renovated. To do this work a staff of 16 is em, the greatest number at work in any local institution save the railroad. Among the improvements made (an bus been installed and a new 99 horse power boiler, and a garment press. Also a large exhaust fan has been installed and a new tagging and marking machine. These last named machines are located in the addition which is occupied by the sorting and marking room, this is arranged along modern lines.

That the local institution requires the very latest improvements to keep abreast of the times is indicated by the fact that in volume it equals the business of either the Weber, Caldwell or Nampa laundries and while not as large as two of those institutions is larger than the third.

NATION IS LAGGING IN STAMP PURCHASE

Inspite of Great Prosperity Uncle Sam's Securities Not Being Taken in Volume Expected—Thrift is Needed Badly.

Washington, D. C.—Total sales of War Savings Stamps throughout the United States for the first seven months of 1919 amounted to nearly \$100,000,000 according to a report made by the Savings Division of the Treasury Department. The exact figure is \$95,400,470.21. This makes a per capita investment of about ninety cents whereas the Government at the beginning of the year asked a per capita purchase of \$10 worth of War Stamps in order to meet war debts.

"The saving of nearly \$100,000,000 in seven months is concrete proof that the Government's thrift campaign is checking extravagant expenditures," the report says. "Checking of extravagant buying is the only remedy for high prices. Saving \$100,000,000 simply means cutting down demand by \$100,000,000 and turning the money to much needed production of necessities."

Leading economists of the country have said there is no hope of lower prices until the people understand generally that they must stop buying things that are not necessary and they have endorsed the United States Government War Savings Stamp campaign as the most effective remedy to that end.

ATTORNEY GENERAL AND GAME WARDEN DISAGREE
 (Continued From Page 1)

gins on October 1st and ends on December 31st. It had been hoped that the Federal and State Laws would conform, and recommendations to this effect were made by the Fish and Game Commission, the rod and gun clubs throughout the state, the Oregon Sportsmen's League, and many individual hunters who had given much study to the seasons. The original draft of the Game Code included a uniformity of seasons, but the position was taken by the Game Committee of the Legislature that the Federal regulations were unconstitutional and, therefore, would be inoperative. Since the Legislature has adjourned, two Federal courts have upheld the Federal regulations. It was the clear intent of the Legislature to give equal hunting seasons. This would have been accomplished had not the Federal law intervened. The State law is operative and will be enforced in so far as it does not conflict with the Federal law. The dates given above are those within which hunters may shoot and be within both the Federal and State law.

Has Lived Long on Ranch
 Mrs. Jacob Stroup who has many friends in Ontario and has long owned property on the eastside was here in town today visiting friends. Mrs. Stroup lives at Washoe on the ranch where she has resided continuously for 46 years, and in that time has watched the growth of the Snake River valley. "It certainly is good to know that everyone in this section has good crops this year and is getting a good price for that crop, for I have seen many years when conditions were not what they are now," said Mrs. Stroup to the Argus. On the Stroup ranch the wheat and other grain grown was so-free from dockage that it scored 100 per cent.

If efforts were made to dispose of all hens when their best laying days were over a large quantity of poultry meat would be placed on the market. All poorly developed chickens should be culled out and sold for meat, also. This would allow the poultry keeper to make the best use of his grain by feeding it to younger and more productive fowls.
