

That's All a Ford Lacks-- "A Starter"

In traveling for knowledge, as many men do, There's a secret Sam Johnson revealed, and it's true, That will start you off right on the road to success, Tho the secret's so simple you'd need but one guess. To discover the wisdom the Doctor disclosed-- As useful to-day as the time when he prosed, And bullied to Bosworth and Goldsmith and others Who lived in the realm of letters like brothers. The Doctor declared in his sententious way, That to travel for knowledge, you must first of all lay In a stock of sound knowledge-like the leaven in bread, You must have a "STARTER" to get things thru your head.

WAR OFFICE STOPS BOMB DISTRIBUTION

Treasury Department's Plan to Award Hand Grenades Blocked

The War Department has cancelled its contract to supply the Treasury Department with 15,000,000 hand grenades which were to be converted into savings banks to stimulate the sale of War Savings Stamps and Treasury Savings Certificates, according to a telegram received by C. A. Farnsworth, associate director of the War Loan Organization in the Twelfth Federal Reserve District, from Washington. Bank and Trust Companies of the Twelfth Federal Reserve District had ordered nearly 100,000 grenades before news of the cancellation was received.

The telegram to Farnsworth read: "As the War Department has determined that the distribution of hand grenades as souvenirs should be discontinued, and has cancelled its arrangement for supplying grenades to the Treasury Department to be manufactured into grenade savings banks the Treasury is unable to continue the distribution of the banks."

In order, however, to recognize the efforts of the children in working and saving during the vacation time, each one who would be entitled to a bank will receive a certificate of achievement from the Treasury in appreciation of his industry in saving and buying government securities.

The hand grenades were known as Mills bombs No. 11 and were ready for shipment to American forces in France when the armistice was signed. "I am deeply disappointed as I know the people who looked forward to receiving one of these war souvenirs will be," said Mr. Farnsworth. "However, I feel sure that thrifty, patriotic folks who are investing regularly in War Savings Stamps will continue to help the government."

AMERICA'S MILLIONAIRES

By the income tax returns for 1917 it is shown that there were in the United States 2302 incomes between \$100,000 and \$250,000 each. If the average was \$125,000, the total incomes in that class were \$287,500,000. There were 2347 incomes between \$150,000 and \$200,000 each. If the average was \$175,000 the total incomes in that class were \$410,725,000. There were 553 incomes between \$200,000 and \$500,000 each. If the average was \$350,000 the total incomes in that class were \$193,565,000. There were 315 incomes between \$500,000 and \$1,000,000 each. If the average was \$750,000 the total incomes in that class were \$236,250,000. At the top of the heap were 144 incomes of \$1,000,000 or more. If the average was \$1,500,000 the total incomes in that class were \$216,000,000. The grand total for all classes gives would be \$1,643,500,000 income among 6654 individuals.

What is your income? You haven't any? Neither did those millionaires until they started to save and invest. Begin now and build up an income. Buy a five dollar United States War Savings Stamp. It pays 4 per cent, compounded quarterly.

If you haven't got four dollars and twenty cents--that is what a five dollar stamp costs--buy a twenty-five cent Thrift Stamp.

Get started. Get an income. An income from War Savings Stamps is not taxable.

THE PITH OF IT

President Wilson, in tackling the high cost of living said:

"Only by increasing production and by rigid economy and saving by the people can we hope for large decreases in the burdensome cost of living which now weighs us down."

Despite the fact that the Department of Justice is scouring about investigating high prices and throwing profiteers in jail, the President's cure for high prices is the only one. He has with him in his opinion the best economists in America and Europe. It is most elementary economics that as long as the public persists in its spending "jag," buying unnecessary and fastening upon industry a demand for more than industry can produce, exorbitant prices will prevail.

There is only one way out. That is the President's way. The people have got to save. In order to save they must do without high priced luxuries and live simply. They must invest their savings that the means of more and greater production may be accumulated.

Economists know that the Treasury Department is doing more than the Department of Justice is to bring down prices. The lowly Thrift Stamp and War Savings Stamp is the weapon. Buy them and hold them. Put them first on the family budget. They bring 4 per cent interest compounded every three months. Get the habit of buying them every pay day. They will solve your high cost of living problem.

SEES OLD WORLD JEWRY IN PERIL

Dr. Cyrus Adler, Jewish Representative at the Peace Conference, Reviews Eastern European Situation.

ECONOMIC RUIN COMPLETE.

Food, Clothing, Medicines and Other of Life's Necessities Must Be Provided by America at Once.

New York.--"The Jews who lived in the zone of war suffered greater hardships, sustained greater losses and have been left in a worse economic condition than any other people of Europe with the possible exception of the Armenians. In some of the regions where the Jews live as many as five armies marched through, each bearing away with it such property as it desired or needed; and finally the Bolsheviks in their wave of power completed the economic ruin of the Jews."

That is the Jewish situation abroad, as seen by Dr. Cyrus Adler, of Philadelphia, one of the most prominent Jewish educators in the country, who was in Europe as a member of the American Jewish delegation to the Peace Conference. He believes that there must be a great deal of economic rehabilitation among his people before they can begin to enjoy the new rights of religious, political and legal equality won for them at Versailles.

"East European Jewry will soon be in a position to help itself, due to the results of the Peace Conference," states Dr. Adler, "but in the critical period that it is passing through now as a result of the European economic and political upheaval, it must receive aid from this country. Food, clothing, medicines--these are the fundamental needs that come before anything else."

"Food must be hurried to the European Jews. I have seen bread that these people were eating, when they could get it, that looked more like a dung cake than like food. It was composed of ten per cent, rye, ten per cent, wheat and 80 per cent, tree bark for filler."

"Another great need is for the facilitating of individual remittances. In many regions no communications have been possible for five years and fathers, mothers, brothers and sisters have lost all track of their relatives in this country."

"In view of all this situation, the coming Jewish relief campaign is a movement that is worthy of every dollar's worth of support that America can give to it. Withholding of aid by America will spell certain disaster to millions of Jewish men, women and children in Eastern Europe."

DWELL UNDERGROUND IN BREST-LITOVSK

Jewish Relief Worker Finds His People Living in Holes in Polish Town.

New York.--Typical of the condition of Jewish communities throughout Poland and adjacent countries is the story of Brest-Litovsk, as recounted by Dr. Boris D. Bogen, executive director of Jewish relief work in Poland, in a report received recently at the headquarters of the American Jewish Relief Committee, 15 East Fortieth street, here.

The population of the town where a couple of years ago the Germans tried to dictate a "peace of violence" to the Russians is now reduced to about 25,000. Of this number 18,000 are Jews, writes Dr. Bogen. So complete was the war time destruction of the town that most of the people are forced to live in mere holes in the ground. There is a semblance of a hospital without windows, doors or means of heating, but so prevalent are typhus, tuberculosis and other diseases brought on by malnutrition that this institution, like all other Jewish hospitals in eastern Europe, is overwhelmed.

"The Jews of America," writes Dr. Bogen, "must take immediate steps to provide for the housing, clothing and feeding of the thousands of destitute Jews in eastern Europe. It will require considerable additional funds to re-equip the hospitals, old folks' homes and orphanages that the Jews have maintained throughout Poland to care for their sick and poor, but these institutions must be gotten into shape for the coming severe winter."

"The people are in a terrible condition everywhere and in great need of the veriest necessities. Homes throughout this region are entirely destroyed for the most part. Refugees who months or years ago were evacuated from the cities are now returning. There is practically no work for them, however, and they are in direst need."

To provide the funds for remedying these terrible conditions, the American Jewish Relief Committee, under the chairmanship of Louis Marshall and the directorship of Henry H. Rosenfeld, is now engaged in conducting a series of state campaigns throughout the Union. The total amount estimated as necessary to finance the essential relief work for another year is \$35,000,000.
