COMB SAGE TEA IN HAIR TO DANKEN IN

It's Grandmother's Recipe to Keep Her Locks Dark, Glossy, Beautiful.

The old time mixture of Sage Tea and Sulphur for darkening gray, streaked and faded hair is grandmother's recipe, and folks are again using it to keep their a good, even color, which is quite sensible, as we are living in an age when youthful appearance is of the greatest advantage.

Nowadays, though, we don't have the troublesome task of gathering the sage and the messy mixing at home. All drug stores sell the ready-to-use product, improved by the addition of other ingredients, called "Wyeth's Sage and Sulphur Compound." It is very popular because nobody can discover it has been applied. Simply moisten your comb or a soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, but what delights the ladies with Wyeth's Sage and Sulphur Compound, is that, besides beautifully darkening the hair after a few applications, it also produces that soft lustre and appearance of abundance which is so attractive. This ready to use requisite for those who desire a more youthful appearance. It is not intended for the cure, mitigation or prevention of any disease.

Constipation.

The beginning of almost every serious disorder is constipation. If you want to enjoy good health keep your bowels regular. This is best accomplished by proper diet and exercise, but sometimes a medicine is needed and when that is the case you will find Chamberlain's Tablets are excellent. They are mild and gentle in their action, easy and pleasant to take. Give them a trial. They only cost a quarter.

Sheep and Cattle Feeders

CANE MOLASSES is used extensively throughout this country and Europe as a sheep and cattle feed. It is equivalent of corn in carbohydrates—fattening qualities—and when combined with ground wheat screenings or alfalfa meal makes the most palatable, succulent feed obtainable at a price less than half that of corn. The cohesiveness of molasses binds the particles of ground screenings or alfalfa meal so that it can be fed on the ground without waste.

Ground screenings and molasses \$30.00 per ton, sacked, f. o. b. cars Portland in carload lots. Type sample sent on request.
