

At The Movies

Excellent Production

One of the best photoplays seen here in many weeks is "The Rescuing Angel," starring Shirley Mason, which is on view at the Dreamland theatre Nov. 7. Miss Mason has an excellent role, that of a young woman who is loved by two millionaires and who has difficulty in making a choice when her father becomes bankrupt. The theme is well handled and the entertainment is of the highest standard.

KISSING

John Barrymore in "Test of Honor" Saturday, Nov. 8

"I have been kissed by others; professionally, of course, but never before I played opposite John Barrymore did I realize the true meaning of a kiss," confided little Faire Binney, who is sweet eighteen and had never been kissed right—until she appeared as Barrymore's leading lady in the Paramount picture, "Test of Honor."

"There is something about his kiss which is different from others: it is tender—firm—soft and yet strong! It is not the cave man sort of kiss, nor is it the weak, simpering kind, it isn't a peck—and it isn't a quart. It's a subtle, well-studied, well-placed kiss that I thought existed only in poetry. The first time he kissed me, he lifted me in his arms. I felt my senses whirl and my feet did not seem to touch the floor."

"We had to repeat the scene several times because Mr. Robertson, the director, was not quite satisfied with my acting. You see, I was so nervous and surprised that I must have shown this emotion in my expression. But Mr. Barrymore didn't seem to mind at all; he went through the scene again and again until I was acclimated. I asked him about his kissing after I knew him better, and he told me that it requires long years of practice to perfect the art, and that I was too young to know anything about it."

"The Shepherd of The Hills" Pastoral simplicity of the kind that approaches grandeur is the inspiring theme in the picturization of

"The Shepherd of the Hills," the photoplay which will be seen at the Dreamland, Monday and Tuesday. The rugged honesty and worth of the men that lead simple lives in the sequestered Ozarks are graphically depicted. These men, tall and up-standing, are the same type as the sturdy pine trees that reach up towards the stars from the eternal hills. The same type of men who landed upon Plymouth Rock and laid the foundation for this land of ours. In this great photoplay are shown these truly American people, living today as their forefathers did. Men of giant strength and the kindness of children. The people in this play really live their lives. There is no sham, no affectation. They love, hate and have their being all unconscious of the fact that they are portraying the great drama of life. The scenic background for this great drama is supplied from a region rich in nature's beauties and a part of the country which has been seldom photographed. The play consists of ten reels with especial musical interpretations.

GWINN AND CLAGGETT RANCHES TRANSFERRED

Two real estate deals involving \$24,000 and \$32,000 respectively were negotiated during the past week by which two large alfalfa ranches near Ontario were sold.

The first deal reported was that by which John Dunphy and J. B. Adrian secured possession of the Montie B. Gwinn ranch just a mile west of Ontario for a consideration said to be \$24,000 or \$150 per acre. This quarter section which lies almost against the city limits on the west has been developed partially for some time and was operated for Mr. Gwinn by Jos. Colley.

Today Thos. Claggett sold his ranch which lies just south of the railroad tract on the lower or Valley View road to Nyssa, to Dave Burrows of Joseph, Oregon who has been looking over a number of tracts. The price named in this transaction is reported to be \$32,000 or \$200 per acre for the 160 acres.

This is one of the best hay ranches in that section. Two of the lines of the Malheur Drainage system are located on this ranch giving it complete drainage and thus permitting the use of practically every foot of the land. The deal for the sale of this land was negotiated by S. J. Spencer.

ARMISTICE DAY WILL BE OBSERVED (Continued From Page 1)

is an oil station in the center of the city.

After further debate the matter was settled temporarily by adoption of the motion to refer the matter to the State Fire Marshall.

But before this was done Mr. Moore gave voice to the following comment: "Ontario reminds me of a bunch of birds sitting on a fence always looking for another bird to come in and help increase the number; but never doing anything to aid the birds that are already inside the fence."

Thru a long evening's debate the Council determined that for residents on the edge of the city to connect with a city sewer a charge of \$100 will be made. This was done in response to the request of Jos. Schall for such a connection.

Considerable time was spent in considering how to heat the room used by City Engineer G. A. Kratz. Judge Stearns said that if the heating plant was compelled to heat the upper floors of the city hall he could grow oranges in his office, while if his was just made comfortable the upper rooms were like a refrigerator. The city hall committee was instructed to investigate the matter.

Scales up Again.

The council was mistaken if it thought that the scales on the street question was settled at a recent meeting. It appears that the motion which ordered the scales off the street did not specify when they should be removed. Mayor Jones called this fact to the attention of the Council and suggested that since the previous action was taken when a number of the Councilmen were absent that the matter be again considered and disposed of.

This was the signal for the setting off of more skyrockets when Councilman Allen asked how in the future the Council would know when a matter was finally disposed of. Councilman Laxson said he did not care to see a precedent established of having questions come back after the Council had acted.

Mayor Jones agreed with this contention but said that a time limit would have to be made so a motion for two weeks notice was considered. During the discussion of the motion

At Chance of the Boise-Payette Lumber company read citations from numerous Oregon Supreme Court decisions upholding the right to have platform scales on streets and the he did not say so the reference was drawn that the company would contest the removal of the scales.

With that idea in mind Councilman Cockrum amended the motion to read five days instead of two weeks. This finally passed with all the councilmen save A. G. Moore voting in favor of it.

Representatives of the Federal truck company from Caldwell were present and presented a proposition for the sale of a fire truck to the city on an installment plan. No action was taken thereon.

At the City Hall Saturday at 9 o'clock there will be held the examination for census enumerators for Ontario and vicinity. There are a few applicants seeking the positions for this territory among are two returned soldiers who if they pass are given preference.

Miss Victoria Stanka who teaches physical training to the girls of the Ontario schools is to have a dancing and Swedish gymnastics for the women of the city. The first meeting of the women is scheduled for next Wednesday evening at the High School.

Fred Canfield returned from Nampa this week to stay for some time.
