

HIGH SCHOOL NOTES

JUNTURA NEWS NOTES

Tuesday of this week saw the opening of the inter-class basketball games between the girls and boys of the high school. The games are played in the gym because they have been unable to secure the opera house as yet. For this reason no team work or real basketball can come about on the present floor, as it is much smaller than regular size.

Last Tuesday was the first game of the season in which the Senior boys and girls played the Freshmen. The Senior boys were victorious by a 39 to 4 score, while the Freshmen girls won to a 21 to 19 score over the Senior girls. The boys' game was rather one sided, however, as the score indicates. As this team has been the champion for the past two years, the game was "easy pickin's" on account of their opponents' inexperience.

The Senior girls' game was a much harder fought game. The Seniors, however, were handicapped in several ways. Mary Messer, one of their star players, was unable to be present and play in the game at this hour, which weakened the team very greatly. Also the game was scheduled on a very short notice and the team was not well organized and players participated who had never practiced. They were unable to postpone the game until a time when these difficulties could be overcome, consequently had to play with a very crippled team.

Wednesday the Junior boys and girls played the Sophs. The Soph girls came out ahead by a narrow margin of a 15 to 16 score. The boys' game was won by the Juniors by a 24 to 14 score. The Juniors are now the strongest competitors for the championship cup this year.

President Tenny of Gooding college addressed the assembly Friday morning, Dec. 12.

Each day at noon the girls of the beginning class in domestic science serve a hot luncheon. The cost of the luncheon is 25 cents. Those desiring only a hot drink may have a cup of cocoa for two cents or a bowl of soup for three cents. Students wishing luncheon sign up at the end of each week for the next week. In this way the class is able to make the necessary preparation. Thus far the plan has been very successful.

The very cold spell which arrived here last week, in connection with the many recent snowfalls, has driven all the stock into the feed grounds, and the haystacks around Juntura and neighborhood are beginning to diminish rapidly. When Oregon Goes to Market

WHEN YOU BUY—

YOU can purchase goods made elsewhere and send a part of your money to other sections to be distributed in payrolls for the benefit of those communities. Or you can insist on Oregon Made Products and your money—all of it—will remain in Oregon to increase the output of Oregon factories; to make bigger payrolls for Oregon; to build more homes and better schools in Oregon.

Which are you buying?
