## The Winners of Awards at the Ontario Poultry Show

The following is the complete list of winners named by Judge G. C. Wherry at the Ontario Poultry Show, which proved to be the largest exhibition of its kind ever staged in Eastern Oregon or Western Idaho. Many of the winners were Idaho birds, but Ontario chicken fanciers and other Malheur county chicken raisers took their share of the honors.

## OREGON STUDENTS EARN \$33095 IN '19

Products Valued at \$66,095 Are Produced—Malheur County Raises Best Corn.

Oregon club boys and girls—2593 of them—produced during 1919 livestock, corn, potatoes, garden truck, canned goods, and other products valued at \$66,095.02, according to the annual report of H. C. Seymour, state leader of boys' and girls' clubs. Net earnings of \$33,095.40 are shown after deducting for labor, rent, purchase of animals and all other materials.

These figures are based on reports of the club boys and girls who actually completed their work out of the 13,000 enrolled at the beginning of the year. Every county in the state was represented with Multnomah, Clackamas, Coos, Douglas and Marion in the lead.

The pork production projects show the greatest profit with \$6,625.75 cleared from 447 market hogs and 52 brood sows. A large number of these are pure breeds as 56 members report having purchased registered hogs which will be used next year in raising more pure bred stock. The vegetable gardening project ranked second in value, 470 members showing a profit of \$6,267.10. The 293 poultry club members raised 4792 chickens, 46 turkeys and 150 ducks, and sold 2248 dozen eggs, making a total profit of \$4439.81.

Canning club girls canned 9479 quarts of fruit, 3461 quarts of vegetables, and 568 quarts of meat and fish besides drying 434 pounds of fruit and vegetables with a net earning of \$2,701.24. Portland boys and girls enrolled in the milk goat project report caring for 64 goats valued at \$2,565.25, and making an earning of \$2,053.50. Rabbits numbering 2415 and valued at \$5,122.50 were raised by rabbit club members.

Although Oregon is not considered a corn growing state, corn club boys cleared \$1,329.19 from their plots. The best corn in the state was raised by Averet Hickox of Malheur county.

Sheep and wool raised by club boys and girls valued at \$1,457.21, cost them \$754.98, making a profit of \$702.23. Calf club members who cleared \$1,427.50, own calves worth \$4,477.50, although this is the first year for that work in this state. Girls in the sewing clubs made 4344 different articles at a profit of \$1158.16. Cooking club members, boys as well as girls, learned to prepare and serve meals and bake bread as good as mother makes. Their profit was \$1269.67.
