SERBIAN TAMBURICA ORCHESTRA
The Serbian Tamburica Orchestra, soon to be heard here on the Lyceum Course, is the only regular band of its kind in America. It is unquestionably one of the most unusual and attractive musical companies on the platform. These six young Serbians appear in the bright colorful costumes of their native land, singing and playing their Slavic music, extraordinary in its exquisite sweetness and thrilling power. They use various sizes of the tamburica, the household instrument of their people for generations. While similar to the mandolin, guitar and banjo, it possesses larger musical possibilities because of greater life and sweetness of tone.
