

FARM COST DATA IS BEING COMPILED NOW
(Continued from Page 1)

Farm Bureau. It is hoped that at least 50 records on 1919 figures will be available before the week is over. Such information contained therein will, in no manner, be conclusive. It should, however, pave the way for a real farm management project based upon carefully kept accounts for the present year.

Data of this kind secured from actual records, kept by the farmers will be of much value in pointing out the leaks in the farm business and in determining the factors which make for success. It will assist in the big question of today cost production. The farmer, as much as any one else is entitled to a price which covers cost of production and a fair profit. The farmers must know what they are talking about. Farm records are convincing. A third big factor, in connection with the value of such a project is that it will give the farmer the information necessary for filing an accurate and complete income tax report. To those who are fortunate enough to come in that class it often means the saving of many dollars.

It is expected that at least 100 to 150 farmers in the irrigated farming districts will take sufficient interest in the project to cooperate with the Farm Bureau. Record books, prepared especially for the farmers by the Extension Service of O. A. C. and distributed by the Ontario National Bank and the Malheur Enterprise Publishing Co. will be furnished to all who are interested. Furthermore, meetings to explain the project and give instruction on the keeping of accounts are now being held in those communities where there is actual demand and interest in the work. So far meetings have been held at Cairo and Oregon Slope. Arrangements are being made to hold further meetings in the Owyhee districts, at Brogan and at Vale.

SURVEYORS COMPLETE WORK LOCATING OREGON TRAIL

Many New Farm Houses Show Substantial Character of Oregon Slope Property — Personal News From the Slope.

OREGON SLOPE, April 21.—The final survey of the road for the State Highway thru this section is now completed to Ontario, and high hopes are held for an early commencement of the work.

The number and type of new farm homes now being built speaks of the progress and development of the Slope. Mr. Campbell of the Jefferson side is the latest one to erect a large and beautiful house on his ranch.

Mrs. Otto Miller and Mrs. Wm. Vincent entertained the Improvement club at the home of the former Thursday afternoon. 22 members and five visitors present. After the usual business, plans for the coming home talent play were made. Program for the afternoon was to have been a talk on Australia by Mrs. Whitney of Ontario but owing to unavoidable circumstances she was unable to be present. The club hopes to have her give it at their next meeting if it can be arranged, which will be with Mrs. Johnson at Payette May 6. The meeting adjourned after a pleasant social hour during which delicious refreshments were served.

Last Tuesday at 7 o'clock at the First Methodist parsonage at Boise occurred the marriage of Miss Virginia Edwards of Philadelphia and Arthur Miller of the Slope. Only a few friends and immediate relatives were present. Mr. and Mrs. O. C. Miller, L. L. and I. I. Culbertson accompanied them to Boise. Mr. and Mrs. Miller will make their home here where he is engaged in farming with his brother O. C. Miller. Their many friends wish them all happiness.

The Park Sunday school will start in future at 2 o'clock. It is very important to be on time so that the school will be over and the preaching services can commence promptly at the scheduled time of 3 o'clock. If the present increase in "increases" more seats must be provided. A few comfortable church seats would greatly improve the situation and would probably be an inducement to some to attend church.

G. J. Wyard of Crane Creek was visiting and looking after business interests on the Slope, Wednesday.

C. R. Staples and P. Ewing motored to Ontario Sunday to see the opening ball game of the season.

Mr. and Mrs. Holloway and family attended church at Weiser Sunday.

Spring repairs on the Joseph pumping plant are now finished and the plant began operations Sunday under the care and management of Mr. White. Mr. Jack Rancy was appointed ditch rider for the season.

Political Announcements

FOR ASSESSOR.

I hereby announce myself as a candidate for assessor on the Republican ticket. Being a resident of Malheur county for 14 years and a taxpayer, I consider the office of assessor one of the important offices of the county.

If elected as your assessor it will be my endeavor to place conservative values upon taxable property of the county, as apportioned that each class of property will pay its just proportion of the taxes.

I have no radical notions relative to assessment or the performance of the duties of the office, but believe the work of the office should be done on a business basis, having in mind economy and fairness to all classes.

Yours very truly,
H. L. POORMAN.

A fair, conservative valuation of all classes of property.

PUTTING IT OFF 'TILL TOMORROW Means Suffering Next Winter!

Putting off 'til tomorrow is the cause of all fuel famines. Last minute orders for fuel mean a shortage because the demand is greater than the supply. Last fall and winter we could not fill a tenth of the orders for wood, so great a volume flooded our office.

Our supply of wood is now large. You can place your order today and insure yourself enough for any emergency. By pooling your order with your neighbor you will get quick shipments and it will be easy to handle. A carload is only 16 cords, and many people will find they can use this much themselves.

Our yard manager will gladly give you any information regarding prices of wood. Make arrangements to order your wood right away. When the cold winds howl outside your house next winter your snapping, crackling, cheerful wood fire will more than repay you for your forethought.

GREAT care is necessary in selecting footwear just the same as selecting a gown or hat. Ashabby or ill-fitting shoe ruins the entire effect of an otherwise faultless attire.

Much shoe dissatisfaction would be eliminated if women would select footwear that has superior qualities.

cluded trips into the country and thus this was his first real view of the agricultural possibilities of this section.

After spending the night at Weiser Mr. Kiddle left Wednesday morning with Mr. Baldoek for Huntington and Baker, so that before he returns to his home in Island City he will have traversed the entire route of the Old Oregon Trail, seen the terminus of the John Day and Central Oregon Highways and thus be in a better position than ever to represent their needs to his associates on the commission.

FOR ASSESSOR

I hereby announce myself a candidate for the office of Assessor of Malheur County, subject to the will of the Republican voters at the primary election to be held May 21st 1920.

Ever conscious of the great responsibility the office carries, I promise, if nominated and elected, to give my best thought and energy to a careful study of the relative property valuation and without fear or favor to so place the same on the tax roll that in my judgment all will bear alike their just and equitable burden of taxation.
