**IS A POSSIBLE COLLEGE
STUDENT**

Oregon sends a bigger percentage of its children to college than any other state, without exception.

**THAT IS ONE OF THE STATE'S
PROUDEST RECORDS**

No state can have too much education. Education is the safeguard of freedom and of right, and higher education is the capstone of the public school system. But higher education in Oregon is in great danger. The State University and the Agricultural College have twice as many students as they have income to train.

**PROTECT THESE SCHOOLS AND
THEIR GREAT WORK**

by voting on May 21 for the Higher Educational relief measure. Higher Educational pays the state in dollars and cents, in improved living, in scientific progress, in far more orchard, garden, and stock ranch development and in the better quality of its public and high school teaching.
