Be fair to Malheur County. Construct its roads and develop its resources. Vote for Julien A. Hurley for State Senator. —Adv. 351-24-24.

Let the auto licenses build roads now—not ten years hence. Vote for the increase limitation. Oregon needs good roads and needs them now.

**Great Tires**

"Great" in every way—in size and service, in looks and action.

A tire that mightily pleases us because it satisfies our trade with a standard of service—higher than ever before.

Come in and see this Firestone Cord. Judge it for yourself. Note its appearance, size, weight, workmanship. You will "sell yourself" on its many extra values.

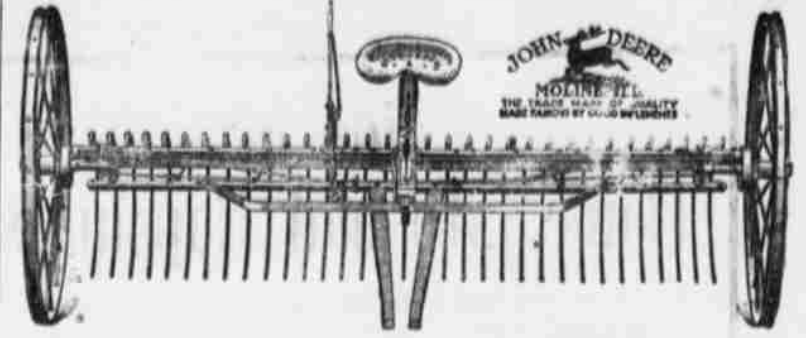

All we'll have to do is to deliver it.

Mrs. David Graham and Mrs. Dan Gallagher returned Saturday to their homes in Juntura after a week's visit at Mr and Mrs. P. J. Gallagher's.

**Better than the Ordinary Hay Rake**

There is a big difference in hay rakes. This difference affects not only the ease of operation and good working qualities, but the length of service as well.

We don't know of a hay rake that is so thoroughly made as the John Deere Self-Dump Rake.

For example, its heavy angle steel frame never sags—the adjustable tie rod keeps the frame true, always.

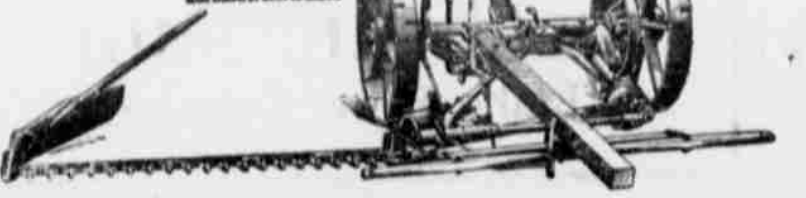

The heavy steel wheels with an extra number of staggered spokes, protected by the channel steel tire, are interchangeable, giving double wear on the rakes.

The arched steel axles give the proper pitch to the wheels—the wheels never pull at the top and out at the bottom.

The dump rods are reversible, giving double wear at this important point. Tooth holder accommodates large or small number of teeth.

You can maintain the good working qualities of the John Deere Rake for years.

And from the operating standpoint, it is simple and easy to handle. With one foot lever, you can keep the teeth in working position at all times; with the other foot lever, the rake is instantly tripped. A convenient hand lever serves to adjust the teeth for close raking, and to elevate the teeth for transportation.

Let Us Work This Out Together

Republican, It Is Up to Us to Elect a Real President This Fall.

He Must Be the Biggest and the Soundest and the Most Effective American We Can Find.

Before Committing Yourself Consider These Facts:

Out of thirteen states, where the contest was between Wood and Johnson for the instruction of delegates to the Republican National Convention, the elections have been decided for Wood in nine.

Total Number of Delegates Pledged to Vote for Wood at Republican National Convention, 321

Since the narrowing down of the field, the situation is generally diagnosed as follows:

A vote for Hoover, for Lowden, or for Poindexter is a vote for Johnson.

**ALL BRUNSWICK**

Brunswick Phonographs are Brunswick made---COMPLETELY

ALL THEIR FEATURES ARE THEIR OWN

This advertisement is placed as an assurance to Brunswick dealers and Brunswick users and prospective users that BRUNSWICK PHONOGRAPHS are not assembled.

Every Brunswick is 100% Brunswick. Most makes of phonographs are assembled. We know of but one other concern with a manufacturing policy like ours.

In the beginning, it is true, we purchased some manufactured parts, a necessary procedure until additional facilities, machinery and equipment could be obtained and installed.

No one denies the greater advantages of making Brunswicks completely in our own shops and this policy was the object in the beginning.

Brunswick Phonograph factories are located at Dubuque, Iowa; Muskegon, Michigan; Chicago, Illinois; Rockford, Illinois; and Knoxville, Tenn. Record factories—Long Island City, New York; Jersey City, New Jersey.
