To every reader of the Argus this announcement brings a message of supreme interest, a message fraught with tidings both great and joyous, for on August 16, Christy Bros. greater united wild animal exhibition will give two performances, at 2 and 8 p. m., in Ontario. Over a score of years Christy Bros. Shows have stood for all that has been biggest, best and supremely novel in the world of amusements. The Christy Bros. were the pioneers in a policy which insisted upon the public being treated with the utmost consideration. This years program offers many new features and displays, presenting scores of America's most famous artists, a colossal exposition of wild animal wonders from every clime; Clowns, a gay giddy and glad-some throng of earth's most ludicrous comedians, creating an endless chain of spontaneous side-splitting laughter with their newest stunts and sketches. Christy Bros. presentation, "The Prince of the Jungle," a pageant of colorful magnificence, a wealth of color, pomp and glorious music, with scores of characters, lavishly costumed, makes this a truly wonderful display. Twice daily, immediately preceding the opening of the doors, a monster FREE act will be given when Upside Down Zenaldo will make his thrilling slide on a slender thread of steel from a height of fifty feet, balancing on his head, atop a roller skate, Zenaldo presents the most thrilling attraction ever offered to the public as a free attraction.

LOCAL AND PERSONAL

John Kakabeke who ranches near Nyssa was an Ontario visitor twice during the past week. There is no rancher of the valley more enthusiastic over the possibilities of the country than Mr. Kakabeke, but he is also of the opinion that a radical change will have to be made if the level of prosperity is to be maintained. He believes in crop rotation, and water rotation as well. "We can raise as fine crops as any part of the west, but we cannot raise one crop all the time and expect the land to bring big returns every year, the sooner we get to diversified farming the better off we will all be," said Mr. Kakabeke at The ARGUS.

Donald McLeod of Harper is in Ontario this week. Mr. McLeod is one of the best known sheep men of the county and has fed his flock in this territory for years. Just now he is pondering on hay prices, wool prices and other problems of the stockmen. His faith in the ultimate return of the game to a solid basis is not shaken, tho it could improve materially right now and not hurt his feelings.

Miss Dorothy Turner spent the week end visiting with Miss Cecil Logan at Brogan.

Mrs. Fred Currey and daughter Hazel were down from Juntura the first of the week.

Miss Catharine Conway, Miss Joyce Turner and Miss Mary Messer are leaving Saturday morning for a two weeks vacation at Seaside, Oregon.

We Loan Money

This bank loans money. That's the way we make our living. But we don't loan money foolishly nor for imprudent purposes.

It is our ambition to see this community prosper and it is decidedly to our advantage to see that it does prosper, because if the community prospers our deposits will be increased and we will have more money to loan. It can readily be seen, therefore, that we cannot consistently loan money for any purpose not conducive to the best interests of the community in general and the borrower in particular. On this basis this bank loans money gladly.
