The New Way To Sew

A Machine You Don't Have to Tread

Just attach this machine to any electric light socket and sew all day if you like, without tiring yourself out. The old-fashioned machine is a thing of the past. Let electricity work for you.

Western Electric

Portable Sewing Machine

Here is a sewing machine that does the most perfect work, with scarcely any effort on your part. A slight pressure of your foot is all that is required to start and stop it or to control its speed.

This electric machine has a full size head without the old-fashioned, cumbersome cabinet. When you are through sewing, just put its cover on and place it out of the way on a shelf or under a couch. It weighs no more than a packed suit case.

You'll be surprised to know that this Electric Machine costs no more than a foot-power machine. And a cent's worth of power runs it for several hours.

We'll Be Glad to Have You Try This Machine Any Time at the Electric Shop

ELECTRIC SHOP

SPIDER MITES APPEAR IN PRUNE ORCHARDS

Prof. Longley Writes Payette County Orchardist Giving Remedy For Prune Pest

"In a few prune orchards there is appearing a considerable infestation of spider mites. These mites work on the leaves both on the upper and lower sides, and one kind, which is at present the most numerous, spins a protective web under which the insects work." Writes Prof. Longley to the County Agent, Payette County.

"Their presence can be detected by the fact that the leaves especially on the upper part of the tree look dry and dusty and in some cases they are already falling. These infested trees can be readily recognized at quite a distance. The mite is very small, hardly to be seen with the naked eye, but there may be hundreds on a single leaf. Fortunately very few of these will usually be found except in orchards that have been neglected in past years, or else have not had sufficient water for a year or more. In a few cases a row of trees along a road may become affected; the mite seems to thrive in hot, dry, dusty places. There is no cause for alarm over this pest, except in a few orchards where it is now numerous.

Spraying with lime sulphur solution at a strength of one part of lime sulphur to 40 parts of water will destroy the mite. There may be a slight burning of a few of the younger leaves, and a slight russeting of some of the fruit might result, but where the mite is numerous this damage will be slight compared to what the mite will cause. Lime sulphur spray as weak as 1 to 50 will probably control them with less danger of burning.

"It can also be controlled by spraying with fine flour sulphur in water at the rate of 30 to 40 pounds to a 200 gallon tank, adding 3 to 5 lbs. of soap dissolved in hot water. The sulphur should be sifted through window screen to break up lumps, and preferably made into a paste before adding to the tank. There will be less danger of burning with this, and it will spread better but is more expensive. Be careful to be thorough in applying the spray.

"Where the infestation is slight and the crop is good, spraying with pure water, applied with a coarse nozzle will help to keep it in check, but frequent applications will be necessary. Its effect is to wash off part of the mites. Adding 4 pounds of common salt to a 200-gallon tank increases the effectiveness of the water spray but there will be a little burning of the leaves.

"A second application of the lime sulphur or sulphur and soap spray may be necessary in about ten days, but probably one application will be sufficient.

Turn your second hand machinery into cash—your neighbor might want just what you don't need—let the Argus Want Ads carry the message to him.

JUNTURA NEWS NOTES

J. D. Fellows, the well known Eastern Oregon representative of the Wiley B. Allen Co. of Portland arrived in town last week, accompanied by H. S. Soule also of Portland. Mr. Fellows placed a high-grade Euphonium Player Piano in the home of George Baker, also a beautiful Solo Player or the same make, equipped with an electric motor, in the home of H. W. Welcome.

Stanley Asp, who has been employed at the P. L. S. Co. ranch at Otis Creek had a bad fall from a hay stack last Thursday, which resulted in some painful if not serious injuries. He escaped with a sprained ankle, a wrenched knee and some minor bruises, and was brought to Juntura for medical attention by Mr. and Mrs. Carrie Moffet.

Andrew Graham and nephew, Jas. Graham left last Monday with Duncan Fraser for the latter's sheep camp in Logan Valley for a days' outing. The Ladies' Altar Society met last Wednesday at the home of Mrs. Daniel Gallagher.

Mrs. Forrest Jones of Jonesboro arrived on Thursday to spend some time with relatives here, and later expects to visit the Farrens ranch above Drewsey, accompanied by William Jones.

Miss Barbara Gresham was reported on the sick list last week.

William Hanley and W. H. Sterling of Burns arrived on Sunday night and spent Monday in town on matters of business. When they returned to Burns they were accompanied by George Stubblefield who has been surveying here for the past two weeks.

Mrs. William Altnow of Beulah

was a Juntura visitor on Friday.

Mrs. William Allen left Friday for Ontario and other outside points for shopping and dentistry.

Mrs. Grover McPeak and children, accompanied by her mother Mrs. Walsh arrived on Friday from Payette for a visit with her sister, Mrs. L. P. Delsole.

William Altnow of Beulah was reported on the sick list last week.

The hay crew of the William Hanley Co. arrived home on Saturday from Burns where they have been working for the last two weeks.

Ben Jones arrived home from Ontario Saturday.

Mr. and Mrs. Redmill of Mountain Home, father and mother of Mrs. A. P. Masterson are visiting at the Masterson ranch near town.

Pat Connolly of Drewsey passed through town Saturday on his way home from Omaha where he had been with a shipment of sheep.

Percy Johnson who has been doing some surveying at Cotton wood passed through town on Saturday on his way to Vale.

Jack and Pete Joyce and Miss Anna Conroy left for Blue Mountain Springs on Sunday for a few days' outing.

James Kennedy and children, Glenzie and Buddy, arrived from Burns on Sunday, having spent a few days fishing at Logan Valley on the way home.

Mrs. Gus Friesz returned on Saturday from the Thompson ranch near Drewsey where she had been for a week's visit.

George Baker made a trip to Drewsey on Sunday to take Lester Dargel back to the Chambers' ranch near Drewsey where he has been haying.

Rev. William A. Baird the well known Sunday School Missionary from Baker arrived Sunday in his car. Rev. Baird was bound for Crane and is making the trip overland. He was accompanied from Westfall by James Graham.

I. M. Davis of Drewsey was a Juntura visitor on Saturday.

Among the young people who went

to Blue Mountain Springs for the week-end were Fred Kauphusman, Kinsey Stewart, J. E. Smith, Donald Masterson and Lester Cawfield. One

of the parties had the misfortune to have a breakdown and V. J. Hopkins left on Monday for the scene of the trouble.
