**We Loan Money**

This bank loans money. That's the way we make our living. But we don't loan money foolishly nor for imprudent purposes.

It is our ambition to see this community prosper and it is decidedly to our advantage to see that it does prosper, because if the community prospers our deposits will be increased and we will have more money to loan. It can readily be seen, therefore, that we cannot consistently loan money for any purpose not conducive to the best interests of the community in general and the borrower in particular. On this basis this bank loans money gladly.

**THE CHENEY PHONOGRAPH**

The Cheney Plays All Records

Equipped with reproducers for vertical and lateral cut records

THE music of the world is at the door of The Cheney. All records, whether lateral or vertical cut, surrender all their loveliness to this master instrument. Equipped with two reproducers made from the most resonant material available—cast bronze—The Cheney may be adjusted in a moment's time to play either type of record.

One reproducer is equipped to receive steel or fibre needles—the other is arranged to receive jewel or steel needles. The charm with which The Cheney plays records of either type is irresistible. Those delicate shadings of voice, faint staccatos of violin, and lovely overtones which give any masterful production its individuality, are brought forth in all their beauty.

Mechanical vibrations, transformed into musical tones, are passed on unimpaired by the resonant Cheney bronze reproducer. Each reproducer is properly voiced so that acoustic interference or "blast" is eliminated and surface noise is reduced to a minimum.
