ADVERTISING OUT COUNTY EXPOSITION

Banners Proclaim Coming of County Fair—Premium Books Being Distributed—Community Fairs Urged As Aid To Bigger Show

Many county cars are carrying banners now giving the dates of the Malheur County Fair, posters and window cards too, are spreading the gospel of the coming event, while the premium lists of the fair telling of the large increases in rewards are being sent out over the county. Another method is now inaugurated, which will prove perhaps the best yet developed to assure more exhibits than ever has been displayed at the Fair is urged by A. A. Gutteridge of Oregon Stone, who is head of the Farm Bureau's exhibition committee. Since many of the communities, including Oregon Slope, Vale, Nyssa, Calro, Adrian and others are planning Community Fairs where the best of the local products will be gathered and selections made for the Community Exhibit at the County Fair, Mr. Gutteridge has this to say in a communication to The Argus on the value of the Community Fair: Community Fairs should be conducted for educational and social purpose, also for the advertising of communities or sections, and should generate a greater interest and a keener competition between communities and between individuals, thus bringing out the very best and encouraging development. This would furnish the County and State Fairs the very finest exhibits annually produced, encouraging better and greater productions, thus scientific farming and breeding. This also means the utilization of the very best community spirit. It means cooperation. It is a showing of how many desirable progressive citizens there are. It is a schooling and an encouragement to the boys and girls of today, who are to become the men and women to shape and conduct the affairs of the world tomorrow, and upon whose education and training the future must depend. Is it not worth your very best effort? It is up to you. Give the youngsters a chance to make good

DEATH ENDS CAREER OF YOUNG PHYSICIAN

(Continued From Page One)

ments were made for the funeral service or interment, but it was the belief of the relatives present that services would be held in the Methodist church at Fruitland, and interment be made in Boise. Dr. Anderson whose death thus ended a promising career had lived in Ontario but a few months, having come here on March 1 of this year to be associated with Drs. W. J. Wense and E. S. Partner, was one of those quiet purposeful men whom but to meet was to be impressed with his strength of character. Even in the short time that he lived here he had made many friends and was steadily laying the foundation for a high place in the life of the community. Dr. Anderson was born 30 years ago in Minnesota and came to this section with his parents when he was 11 years of age, when they settled on the Fruitland bench. After graduating from the Payette High School he attended the University of Idaho for two years and then entered the University of Minnesota from which he received his Bachelor of Science degree in 1915, and his degree of Doctor of Medicine in 1917. He served his internship at the City and County Hospital at Duluth, Minnesota, and from there went to Parnum, Minnesota where he started active practice of his profession just before the war started. He left his practice to enter the service and was stationed at Fort Riley, Kansas and at Washington D. C. specializing in nervous diseases. Following his discharge from the service he attended Harvard University college of medicine for post graduate work preparatory for his special department in the local medical firm. Upon completing his course he came to Ontario and continued studies to take the Oregon State Board at its first meeting following his arrival. He took the examination in July and his license to practice arrived in Ontario the very day of his death.

FORMER ONTARIO EDITOR MARRIES BOISE TEACHER

Cards were received last week announcing the marriage of Arthur Fuller Riddle, who for several years was the editor and publisher of the Ontario Democrat to Miss Olive Evelyn Shaw at the Church of the Epiphany in Seattle on Monday, August 16. Only the groom's mother, Mrs. Adah F. Riddle and his sisters, Mrs. C. C. Dodge and Miss Louise Riddle of Caldwell, Idaho, witnessed the ceremony. Mr. and Mrs. Riddle will be at home after September 15 in Boise, Idaho where the groom is now on the local staff of the Capital News. The romance of the former Ontario newspaper man had its inception shortly after he left the army service and joined the News staff in 1919, the bride was then a member of the public school faculty at Boise, to which city she came from Ludington, Michigan, her home town. Mr. Riddle prior to his coming to Ontario was editor and publisher of a paper in Minneapolis, Kansas, following his connection with the Kansas City Star and his graduation from Park College, at Parkville, Missouri and from a post graduate course at the University of Kansas. While he was in the service he was the editor of the Bugle at Camp Lewis in Ontario he figured prominently in the social life of the community, was president and one of the founders of the Oregon club, and was a director of the Commercial club during the spring and summer of 1918, at the same time he was the club's secretary.

RAILROAD RATES IN OREGON RAISE

Salem, Or.—Intrastate railroad rates to conform with the 25 per cent increase charges approved recently by the Interstate commerce commission will become effective in Oregon on August 26, according to an announcement made by the Oregon public service commission here. The action of the public service commission in announcing the new tariff follows out the arrangement tentatively agreed upon at a joint conference of the Oregon, Washington and Idaho commissions held in Seattle a few weeks ago. The action of the Oregon public service commission is in line with that followed by most of the state commissions throughout the United States and is in accord with the urgent suggestion made by the three commissioners who sat with the Interstate commerce commission at the hearing of the recent rate case. The Oregon commission in pursuing this course made it plain that its action in no way establishes the reasonableness of the rates filed or precludes a shipper from bringing action or prevents the commission from attacking any rate so filed.

Make Sewing a Pleasure SEW THE ELECTRIC WAY

Carry your sewing machine into the coolest room in the house or out on the vine-covered porch. It is no trouble at all to move the Western Electric Sewing Machine.

Make Electricity Work For You

The Western Electric Sewing Machine is a full-size machine without the old-fashioned cabinet and treadle. It handles the daintiest or the heaviest work perfectly and is equipped with all the latest attachments. And it is so simple to operate. Just attach it to any electric light connection and let electricity do all the hard work of your sewing. A slight pressure of your foot is all that is necessary to start or stop it and to regulate its speed.

Costs No More Than a Foot-Power Machine

With all its advantages, the Western Electric Sewing Machine costs no more than a foot power machine, and its costs practically nothing to operate. One cent's worth of electricity will run it several hours.

Come in and Try the Western Electric Sewing Machine for Yourself at the Electric Shop
