Because of the cold threatening weather the Payette County Picnic which was held at Fruitland school grounds Wednesday, August 25th, was slow in getting down to the entertaining features of the program but when once started lacked nothing of interest from the youngsters foot races to the Old Maid and Married Women's race. The married men, much to the surprise of most every one, won in a close game—2 to 1—in the ball game. Bob Tackett won the slow auto race. Payette closed their business houses and came out to visit our little town and showed their interest in the success of the picnic. Mr. Fluharty of the State University gave a short talk. Much interest was taken in the stock judging contests and the canning and sewing demonstrations.

I have the Best Equipped Chiropractic Office in the State of Oregon  
16 YEARS OF EXPERIENCE

My modernized system of Chiropractic is a scientific method of adjusting by hand the cause of all disease. It is a correct knowledge of the brain, spinal cord and the nerves emanating therefrom. By adjusting the nerve center, the spine, in a natural manner with the hands, the cause of disease is removed.

Disease is an abnormal quantity of impulses caused by certain degrees of pressure upon the nerves. After locating the pressure my modernized method of chiropractic corrects the same thereby causing a normal transmission of nerve force from the brain to all the tissues and organs of the body, restoring health.

I make a specialty of Electro Therapeutic's using XRay, Violet Ray, High frequency, Auto Condensation, Auto Conduction, Diathermy, De Arsonal, Sinusoidal faradic and galvanic currents, also Therapeutic light, concussion and vibration.

Remember, if after making a thorough examination, I conclude that your condition cannot either be cured or relieved I will frankly tell you so.
