"MALE & FEMALE" GRIPING
STORY OF PRIMITIVE MAN
 So fate seized them—a snobbish family of British blue-bloods. Cast them on an island where the voice of the world was lost. Tumbled there, lord and butler, lady and scullery maid, into a common mass of males and females. Laughed at their former glories, their former handicaps. Pointed to an untamed jungle, ruled only by wild beasts, and said: "Now we shall see who rules."
 Then the butler, because he was a man, became a king; and the great lady who once dined him, served, loved him—fought with a slavery for his kiss!
 One day a ship. Rescue! Home! The old world and its old ways. Its pride, conventions, shallow distinctions. Did the true love, the true leadership, of the wilds hold then? Come and see. At Dreamland, September 14 and 15.

MODERNIZED CHIROPRACTIC

I Invited the Public to My Office to See How I am Equipped my system of Modernized Chiropractic.

The Latest Method of Diagnosing by Means of the X-Ray.
 I have been reliably informed that it has been reported that I am not permanently located in Ontario; that I am only to be here a short time; that my system is to get the money and get out, etc. I wish to say, that I have located in Ontario and expect to remain here permanently. I have practiced Chiropractic 12 years in this state and the people with whom I have had business dealings are my very best friends.
 This is why I am at the Moore Hotel.—It is the coolest place in town in the summer, the warmest in winter. I expect to have a volume of business from the interior. I can obtain good, comfortable, well ventilated rooms for my patients and have them close at hand where they can have my personal attention.
 I wish to further state that I am not so egotistical as to think my method of healing is the only method whereby disease, pain, etc. can be alleviated. But I do think that 99 per cent of chronic ailments can be alleviated by scientific chiropractic adjustments.

DISEASE IS A UNIT
 Disease is a unit. Its location gives it a name and the name is usually long enough (thanks to the doctors of medicine) to frighten the patient, at least, half out of his life. The primary cause of the disease is an impinged condition of the nerves. First comes the PINCH, which is followed in a greater or less degree, according to the nature of the PINCH, by the clogging of the system. If in the liver, Choleliths, or some other horrible thing depending on the doctors' familiarity with these jawbreaking names. The longer the name the longer the bill, generally, I say generally, because I know there are some honest doctors.
