

# At The Movies

TO BE SHOWN IN THIS CITY NEXT SUNDAY

House Peters in The New Picture "Silk Husbands and Calico Wives" — Majestic Attraction

"Silk Husbands and Calico Wives," starring House Peters, which is to be shown at the Majestic Theatre Sunday, will be highly interesting to local moving picture devotees for a number of reasons. The picture is based on Monte M. Katterjohn's popular novel of American life, a thoroughly and intensely modern story dealing with both country and city. No finer or truer to life picture has ever appeared on the screen—it is intensely absorbing and timely with a beautiful love story running through it. The story depicts vividly the struggles of two young people making their start in life fresh from the country. They are full of the enthusiasm of youth and are thrilled in their call of the great city, when the offer comes to go to New York. What the tumult of the metropolis makes of them, this strong man and woman who, in the midst of all their struggles to establish themselves have found romance and a great love is the big, human theme of "Silk Husbands and Calico Wives." It is a story that reaches down deep in the heart of every human being, and starts folks to talking thinking.

Mr. House Peters, returns to the screen after an absence of eighteen months on the farther side of the continent where he appeared in American made pictures. Mr. Peters has long been an idol of the film loving public, and his virile, red-blooded type of character portrayals, and his magnificent successes in "The Girl of the Golden West" and "The Great Divide" are still regarded as among the very best portrayals of screen history.

Harry Garson has surrounded the star with a cast of admirable distinction. Vincent Serrano, who played the role of the Yogi in "Eyes of Youth," will be seen in a prominent part, Sam Sothern, also seen in the "Eyes of Youth" will be seen in a prominent character. In addition Eva Novak, Mildred Reardon, Edward M. Kimball and Ruth Sienclair rounds out the cast.

"Silk Husbands and Calico Wives" was completed nearly a month ago

and is now being shown in the leading theatres of the United States. The production is one of the most absorbing of screen stories. The engagement is for Sunday only.

VIOLA DANA GOES "WICKED" IN NEW ISMOND PICTURE

Will Be Seen As "Baby Vampire" In "Dangerous To Men" At Dreamland Theatre

Viola Dana has the most important drama of her starring career in "Dangerous To Men," which is announced as the feature attraction at the Dreamland Theatre, for a run of two days, beginning Tuesday, September 21. The screen play is an adaptation by M. P. Younger of the famous English drama, "Eliza Comes To Stay."

The role of Eliza taxes to the full Viola Dana's versatile powers as a comedienne, picturing the development of a tomboy school girl who finds herself at eighteen thrust into a bachelor's household as his ward, there to discover her own seductive charm and how it makes her regarded as a dangerous woman. It is said to be Miss Dana's favorite role.

The question of woman's cloths is brought prominently into the story. Eliza, the daughter of an eccentric explorer, has been brought up by a spinster aunt, who insists that the girl dress to be "safe" from men. Eliza's precautions are so excessive that she becomes an object of ridicule at school and has to fight her way when the boys tease her.

But Eliza learns. The hoydenish girl finds her way through love into the secret of how to attract men. She is successful, so successful that she comes to be regarded as "dangerous." Circumstances lead the girl into an audacious impersonation of a "vampire"—an impersonation in which Miss Dana is said to have startled and thrilled her audiences. Here the play develops a situation of enthralling interest and moves rapidly to an unexpected denouement.

PARIS STREET IN FILM AN EXACT REPRODUCTION

An idea of the prodigality shown in the production of motion pictures may be gained from the fact that a reproduction of a familiar street in the Latin Quarter of Paris was constructed for a single "shot," occupying scarcely a minute on the screen. This scene occurs in "Burnt Wings," the photodrama based on the successful stage play, "The Primrose Path," by Bayard Veiller, which is to be

# AIR BLAST UNIVERSAL Newest Idea in Heating

## A. L. McDOWELL

Ontario, Oregon

Furniture, Hardware and Undertaking

Phone 175 Night 89M

A new improved idea in heating is embodied in the "Air Blast" Universal and by means of which about 99% of the smoke and gases from soft coal are burned and turned into heat. No other heater is as efficient as the "Air Blast." It will burn the cheapest grades of fuel with absolute cleanliness, giving you more heat at less expense than any other stove made. It pays for itself by its economy.

The "Air Blast" Universal is more than an ordinary smoke consuming heater, however. It is a heat producer beyond compare. Thousands are in use and it is one of the biggest selling heaters we carry. The illustration on the front page shows how the patented diaphragm forces the smoke and gases over the fire in a circular movement. It is thus held and mixed with the sharp blasts of superheated air from the openings surrounding the fire pot until every unit of heat is used and practically all (99%) of the smoke and gases are burned.

The air for the "Air Blasts," enters the stove through the intake at the front as indicated and passes entirely around the fire pot becoming superheated before it is discharged in sharp "air blasts" through the openings provided.

These two wonderful features of construction are what particularly distinguishes the "Air Blast" Universal and makes it the greatest fuel saver and most powerful cognized

coal and wood heater on the market. It is a high class, well built stove which will last, giving economical service as long as it is in use. We will be glad to demonstrate these features and the many others which are embodied in this stove, and urge you to visit our store when next in the vicinity, as actual demonstration will tell you more in ten minutes than we could tell you in a book. No obligation to buy.

In addition to the "air blast" and patented "diaphragm," fuel saving the "Air Blast" UNIVERSAL is a wonderful floor warmer. The temperature in your home will be uniform from floor to ceiling when you own an "Air Blast" heater.

This is brought about by the construction of the heating chamber which deflects the heat downwards toward the floor as well as upward.

The result is warm floors—No danger of the children catching cold from playing on the floor. In most heating stoves the fire is a considerable distance from the floor and there is no means for throwing the heat downward.

In the Universal Air Blast this feature has been developed and the floor is as warm as any other part of the room.

Ask us to show you this feature in construction—you will see how this is made possible in the Universal Air Blast.

Let Us Demonstrate This Floor Warming Feature

seen at the Majestic, Saturday only. The plot of the story hinges on the fact that Joan Templeton, wife and model of a struggling artist in France met an American tourist on a certain street in Paris. A replica of the de-

tailed scene was erected, the scene photographed, and later it was dismantled to make way for other elaborate sets. Christy Cabanne, who directed "Burnt Wings," believes in fidelity to detail. In "Burnt Wings" he had every possible aid to a perfect photodrama—a good story, an ideal cast and a production that stopped at no expense in the smallest detail.
